PPS Buildings on City of Portland Unreinforced Masonry (URM) Building List
As of Oct 2024

Several buildings that were previously on the City of Portland's URM Building List have since been fully seismically reinforced by PPS. PPS is working with the City of Portland to update their list, however the City's list may still include some sites for which full seismic reinforcement has recently been completed or is in the process of completion.

The following sites have had some incremental seismic improvements but are not yet fully seismically reinforced as of 2024. PPS continues to seek funding to complete full seismic reinforcement of these sites.

1. Ainsworth Elementary - *Some interior seismic upgrades. Seismically strengthened roof.*
2. Beach Elementary - *Some interior seismic upgrades.*
3. Buckman Elementary - *Seismically strengthened roof.*
4. Capitol Hill Elementary
5. Cleveland High School* - *Seismically strengthened roof.*
6. Creston Elementary - *Some interior seismic upgrades. Seismically strengthened roof.*
7. Fernwood (Beverly Cleary) Elementary - *Seismically strengthened roof.*
8. George Middle School
9. James John Elementary - *Some interior seismic upgrades. Seismically strengthened roof.*
10. Jefferson High School** *Will be rebuilt starting in fall 2025*
11. Kelly Elementary - *Seismically strengthened roof.*
12. Markham Elementary - *Seismically strengthened roof.*
13. Marysville Elementary*** *Undergoing a full seismic retrofit from 2024-2025*
14. Mt. Tabor Middle School - *Seismically strengthened roof.*
15. Richmond Elementary - *Seismically strengthened roof.*
16. Rieke Elementary - *Seismically strengthened roof.*
17. Rigler Elementary - *Seismically strengthened roof.*
18. Rose City Park Elementary
19. Sabin Elementary - *Some interior seismic upgrades. Seismically strengthened roof.*
20. Smith Building (non-school site)
21. Vernon K-8 - *Seismically strengthened roof.*
22. Wilcox K-8
23. Winterhaven Elementary - *Seismically strengthened roof.*

**Cleveland High School was allocated funding in the 2020 School Improvement Bond to complete master planning and design for a full modernization. However funding for construction has not yet been secured. PPS anticipates securing that funding in a future bond.*

***Jefferson High School was funded for full modernization in the 2020 School Improvement Bond and scheduled to begin work in 2025 and be completed in 2028.*

****Marysville Elementary is undergoing a full seismic retrofit. Phase one was completed in the summer of 2024. The final phase is scheduled to be completed in the summer of 2025.*

Recently Reinforced PPS Buildings from the URM List

As of Oct 2024

The following sites were previously on the City of Portland's Unreinforced Masonry (URM) Building List but have since been fully seismically reinforced or full seismic reinforcement is in process of completion.

Alameda Elementary (completed 2013)
Benson Polytechnic High School (completed 2024)
Creative Science / Clark (completed 2023)
Franklin High School (completed 2017)
Grant High School (completed 2019)
Hayhurst Elementary (completed 2020)
Kellogg Middle School (replaced with new construction in 2021)
Lent Elementary (completed 2022)
Lewis Elementary (completed 2018)
Roosevelt High School (completed 2017)

Other PPS schools, not on the City of Portland's URM database, were modernized or rebuilt and brought up to current seismic code standards.

Lincoln High School (completed 2022)
Leodis V. McDaniel High School (completed 2021)
Multiple Pathways to Graduation hayu algi uyxat building (completed 2024)
