Subject	Focusing on disabled students: Please support SEPTSA's requests!

Dear Members of the Board,

I am [who you are, for example: the parent of a second grader at ___ School, an occupational therapist, a concerned community member]. [One or two sentences about how rightsizing could affect you, or why disability justice matters to you.]

I support the requests in SEPTSA's Rightsizing Report. Students with disabilities and their families need to understand the impacts of each scenario, now and in any future version, to be able to provide meaningful feedback.

Please urge the district to provide SEPTSA's requested information before the final recommendation is presented. And, don't vote on a final plan until the district has publicly answered SEPTSA's questions and families have had time to respond.

Thank you,
