EXECUTIVE SUMMARY FROM 01/19/16 WILSON HS MEETING

Key takeaways from the public comment received by PPS at the 1/19/15 meeting:

- **Spanish Immersion at Atkinson**. Testimony both for and against relocating the Spanish Immersion Program was received from the public comment, although more testimony was received in support of keeping Atkinson's SI in its current location. The majority of parents expressed opposition, stating the importance that the facility was kept in its current facility for the purposes of the importance of socioeconomic and cultural diversity, the logistical importance of the programming's proximity to lower socioeconomic communities, and the desire to limit disruptions to the programs successes by moving it to East Sylvan. Testimony in support of moving the Spanish Immersion program was also received, which acknowledged the difficulties of housing two programs in one building and the opportunities for the Spanish Immersion program to successfully thrive in its own facility. Parents also pointed out that moving the program would have implications for existing students in SI programming at Grey and Lincoln, and that the matriculation patterns of SI students need to be studied.
- **Transportation:** Testimony representing virtually every school on the Westside expressed significant concern that the DBRAC proposals create significant difficulties for families. Many parents noted that they cherished their children's' ability to walk or bike to school, and that the new boundaries would create significant automobile traffic, create logistical hazards for families, provide difficult TriMet routes to new facilities, and force parents and students to spend long hours in gridlock on Southwest Portland's winding streets getting to their new facilities.
- **Solutions for overcrowding.** Many parents expressed a desire to see PPS expedite options to address overcrowding, ranging from support to a new school in Northwest Portland, moving Chapman students across the river to schools on the Eastside, opening Smith, utilizing East Sylvan for the Spanish Immersion program currently at Ainsworth, or moving MLC (which had substantial representation as well, opposed to any change to their current facility).
- Approximately 490 parents showed up at Wilson High School to share their concerns with the current plans; the majority of comments expressed frustration and discontent with the January 9th proposal, the short amount of time for public feedback, and a desire to see the boundaries kept where they were previously to preserve intact neighborhoods.

PRESENTATION SUMMARY

Mr. Jon Isaacs welcomed the large audience to the high school and introduced Wilson HS Principal Brian Chatard, Hayhurst Principal Deanne Froehlich, DBRAC members in attendance, PPS Board Members, and PPS Superintendent Carole Smith. PPS Staff showed the "Growing Greater Schools" video that explained why PPS was conducting this enrollment balancing process. Mr. Isaacs explained the current stage of the District's redistricting process, noting that proposed changes to the Westside schools stemmed from PPS' attempts to address overcrowding at Chapman, Hayhurst/Odyssey, and Lincoln. He introduced PPS staffer Ms. Sarah Singer, who explained how the district used the feedback received from the community at 17 public hearings

in regards to Scenarios I and II this past fall to draw these new boundaries to better reflect the needs and desires of the PPS community. She also noted that in December, PPS received new data that included 2015 enrollment numbers, which forecast even more crowding at Westside schools, including Chapman and Capitol Hill.

Ms. Judy Brennan, PPS Director of Enrollment and Transfers, acknowledged that community feedback in opposition to the split-feeder pattern proposed at Bridlemile helped inform PPS' current proposal. The proposal involves shifting boundaries to Chapman, Ainsworth, Rieke, Hayhurst, Maplewood, Jackson, Capitol Hill and Stevenson to address overcrowding and underenrollment concerns. She noted that while these changes don't fully address all of the problems, the forthcoming PPS Bond Measure represents an opportunity to build additional capacity at Lincoln. She continued that DBRAC asked to study ways to implement their adopted values into these new proposals, which included moving the Spanish Immersion program at Atkinson to East Sylvan and shifting Bridlemile to feed into Gray and Wilson, as well as potentially relocated MLC. She concluded by acknowledging that PPS Policy states that boundary changes would be implemented to incoming students only and that existing students would be "grandfathered" into continuing into their existing feeder patterns, although the PPS School Board has the legal authority to change that policy if it deems it necessary to expedite the balancing process.

Ms. Brennan noted that information about the DBRAC process and documents provided at meetings are available on PPS' website (http://www.pps.k12.or.us/departments/enrollment-transfer/9522.htm). After their presentation, Mr. Isaacs explained the format for the public comment section.

SPOKEN PUBLIC COMMENT

PPS Staff provided the audience an opportunity to orally testify on the proposed Scenarios. Testimony transcribed below is presented in the order it was provided at the meeting.

BRYAN , _____. Mr. ____ delivered testimony that communities in Southwest Portland were dedicated to providing the best education for their children, and that they wanted to derive the best outcome with the least negative impact. He continued by stating that Westside families will continue to work with PPS staff to develop short term plans to address acute overcrowding in 2016 and a long term plan to get more funding and establish a progressive forum for educating all of Portland's students. He implored DBRAC to ensure any boundary changes will fix acute problems, to support grandfathering, and to continue to consider how these changes will impact students with special needs.

WILL FULLER, Multnomah Village. Mr. Fuller provided testimony as the representative to the SWNI Schools Subcommittee. He noted his subcommittee was formed after the district was forced to close Smith in the previous decade, and he encouraged parents to get more involved with the neighborhood association. He asked the district to ensure their decisions will provide the best education to Southwest Portland's students.

JORDAN HARNICK and EVAN NYHUS, West Sylvan. Mr. Harnick, a 7th grade student at West Sylvan, testified in opposition to the redistricting proposal. He expressed his concern about losing friends and community ties through athletics and summer camp with Ainsworth students,

and stated he didn't want to "start over again" making new friends at a new school. He testified with Mr. Evan Nyhus, another 7th grade student, who expressed a desire to keep the original feeder patterns so he was able to continue taking Mandarin classes, an important detail for Mr. Nyhus, who identifies as Chinese-American. They both expressed a desire to matriculate to Lincoln and participate in the IB program.

JULIA NOVY-HILDESLAY, Ainsworth. Ms. Novy-Hildeslay testified that, having worked ten years designing STEM education for underserved communities, she wished DBRAC would step back and figure out the big picture concerns. She expressed concern that these boundary changes would break the relationships between neighborhoods, and that moving the Spanish Immersion program would cause irreparable harm to a "crown jewel" program. She encouraged the district to find an alternative solution to the proposed changes.

BRAD NELSON, Bridlemile. Expressing appreciation for DBRAC's willingness to listen to Bridlemile's concerns last fall, Mr. Nelson asked DBRAC to similarly listen to the concerns of the Chapman, Rieke and other Westside schools. He encouraged the adoption of further Dual Assignment options to address the real transportation concerns many parents face if these changes are finalized.

KAREN LANNING, Capitol Hill. Identifying as a pediatrician, Ms. Lanning testified on behalf of the 50-80 families who would be shifted from Capitol Hill to Stevenson. She appreciated the efforts of Capitol Hill staff to creatively address the overcrowding at the school, and pointed out that Markham's school has not been considered for a boundary change despite the school being currently underenrolled. She concluded her testimony asking that the PPS Board firmly commit to grandfathering in current students at their existing facilities and stopping out-of-area transfers into these overcrowded schools.

ROSIE PLATT, Chapman. Testifying as the PTA president of Chapman, Ms. Platt expressed appreciation for DBRAC's commitment to finding a long term solution for PPS Students. She advocated for families relocated to Ainsworth from Chapman south of NW Everett, noting these families are concerned about lack of walkability and public transportation to their proposed new school. She also testified that she hoped Chapman's homeless students were able to receive similar "wrap around services" at Ainsworth or other facilities if moved, as they have received at Chapman, including coat drives and free meals through partnership with the PTA.

DICK MAUSKEN, Grey. Mr. Mausken's testimony did not comment on specific changes, but asked DBRAC to ensure that Robert Grey Middle School kept an enrollment above 510 students, which he believed was a necessary minimum for a functioning school. He also hoped the district keep walkable school districts in SW Portland.

TINA OLIVER, Multnomah Village. Speaking on behalf of Hayhurst School, Ms. Oliver noted that Hayhurst families have mixed families about the Odyssey program leaving their school but ultimately acknowledge that they don't have enough space for both programs at the facility and support a swift and thoughtful move. She continued that she hoped the move would be buoyed with a plan for sustainable enrollment at Hayhurst, and concluded that the Hayhurst community was eager to welcome new families who may be transferred to the facility.

MIKE ROACH, Hillsdale. As President of the Hillsdale Business Association, Mr. Roach testified that small business owners supported Rieke parents' concerns about the proposed boundary changes. He provided a history of the important relationship that Rieke parents and the Hillsdale Businesses have cultivated and encouraged the district to keep their community intact. He also warned of the severe traffic concerns that would come from the new boundaries, in which many parents would be forced to drive their students to Rieke from points farther North.

DENA HIGGINS, Council Crest. Ms. Higgins acknowledged that she was surprised to see her neighborhood boundary changed so late in the process, having followed the DBRAC meetings through the fall and not heard any discussion of changing the designated neighborhood school of her neighborhood. She encouraged DBRAC members to avoid "looking at a map" but instead study the difficult, complicated topography of SW Portland when considering proposals. These natural boundaries and treacherous roads, Ms. Higgins testified, must be considered in DBRAC's recommendation, and she encouraged the district to instead look at moving students in NW Portland across the river.

STEPHANIE KONDOR, Maplewood. Ms. Kondor testified that she was concerned about the rapid growth at Maplewood, which has seen a 12% increase in the last twelve months. She stated her support for reopening Smith elementary next year to help alleviate overcrowding at Capitol Hill and Maplewood. She also lamented the lack of Focus Option programs on the Westside, and wanted to keep Odyssey in the Wilson cluster. She also testified on behalf of six families on the wrong side of SW Vermont for the proposed changed, and stated she wished to seem them grandfathered in to their existing school.

LAURA BRUSHARD, MLC. Ms. Brushard testified on behalf of "invisible student populations," expressing her support for MLC in its existing building because of the important work the school had done for students with neurodiversity. She shared stories of the success her child was having at MLC and credited the school for providing a great learning experience. She urged the district to avoid moving the program for fear it would disrupt the success of the program.

BRENDAN STAMPER, Odyssey. Mr. Stamford, the Vice Chair of Odyssey's strategic planning committee, stated he welcomed the exciting potential to move the program to the East Sylvan facility. He mentioned he'd also like to hear what DBRAC thought about moving the program to either Smith or Jackson.

ELLIANA PLUMRIDGE, Rieke. Elliana, a fifth grade student at Rieke, stated his opposition to the boundary change because he didn't want to move to a different middle school. He noted the friends and community he had developed at Rieke and wanted to attend the same middle school from which his mother matriculated

ALIYAH BLANK, West Sylvan. A 7th grader at West Sylvan, Aliyah testified that she appreciated the Spanish Immersion Program and warned that it would disappear if you move it out of the neighborhood school at Atkinson. She asked DBRAC to keep the Spanish Immersion program at its existing location and not move it out of the Ainsworth, West Sylvan, and Lincoln schools.

MARISA HERNANDEZ, Atkinson SI. A parent of a native speaker, Ms. Hernandez asked PPS to keep the Spanish Immersion program at Ainsworth, which has been a great fit for Ms. Hernendez' child. She mentioned that she was an active PTA member and that she enjoys sharing her culture with the entire school. She concluded by stating that if given the choice, she wouldn't follow the SI program to East Sylvan if it was relocated.

PAULA O'NEIL, Bridlemile. Ms. O'Neil testified that the current proposal would directly impact her family, and that she and the families south of SW Hamilton were disproportionately impacted by the January 9th proposal. She noted that 41 students living in multifamily apartment complexes enrolled in the Spanish Immersion Program, "a population probably not here tonight," don't have the same access to transportation and childcare and are therefore more vulnerable to bad outcomes with the proposed changes. She asked that DBRAC consider returning Bridlemile boundaries to the Beaverton Hillsdale Highway line and Scholls Ferry to maintain Bridlemile's diversity and connectedness.

MARINE LESSY, Capitol Hill. Ms. Lessy's testimony asked DBRAC to strongly consider keeping grandfathering proposals to ensure students can matriculate through their existing schools. She also acknowledged that there hadn't been much discussion about Markham, Forest Park and Smith, and hoped to see Smith reopen sometime soon.

JILL KULAS, MLC + Ainsworth. Ms Kulas encouraged PPS to work with the City of Portland to address the overcrowding in NW Portland. She stated support for MLC to continue to look for new She stated her support for neighbors in the King Neighborhood who wanted to see Tubman remain a neighborhood school, and outlined her ideas of ways in which PPS could address overcrowding.

AIDEN GREEN, Lincoln. A student at Lincoln, Aiden testified on behalf of maintaining the Spanish Immersion Program at Westside schools. Mr. Green testified that the program helped him embrace his Salvadorian background and that Lincoln would lose diversity if this program was moved.

JODY McMANNING, SW Portland. Ms. McManning, a landlord, shared the story of a tenant who lives in the Bridlemile area and was opposed to the changes because of the importance of the Spanish Immersion program to her child. She noted that while their property was walking distance to Bridlemile, the proposal would send the student to a different facility. She testified on behalf of the 41 families who live south of SW Hamilton and noted how much these families, due to socioeconomic and cultural circumstance, needed the Spanish Immersion program to stay at their local school.

JILL MITCHELL, Ainsworth. Ms. Mitchell stated that while she has close friends in the Spanish Immersion program and enjoyed its presence in the Ainsworth community, she stated it's been a struggle for the Ainsworth community as conflicts arise with concerns of funding, class sizes, and maintaining both programs within the building. She stated she believed this was an opportunity to provide Spanish Immersion the opportunity to grow in its own building, and will make it easier for others to access the programming, and would provide more socioeconomic diversity in Ainsworth by taking in more students from Chapman.

VANESSA RENTSCHLER, Rieke. Ms. Rentschler stated she wanted to echo the comments she had heard in support of students with special needs, noting that dividing the Hillsdale community would have a unique impact on him. She thanked DBRAC for their consideration of the importance of neighborhood cohesion, noting the role a strong neighborhood school played in helping integrate her child

JENNIFER WHITTEN, Bridlemile. Ms. Whitten testified that she appreciated the support from the community about looking out after students in SW Portland's schools. She shared her experiencing working at a Beaverton school for sixteen years with a high poverty rate, and noted that it was important for low income communities to have reliable, accessible, excellent public education. She stated she intended to work to support the upcoming PPS Bond and encouraged SW Portland neighbors to do the same.

MARY PEVETO, Chapman/Lincoln. Ms. Peveto thanks DBRAC for their work but encouraged the City of Portland to address the significant population boom expected in Northwest Portland with the continued growth of the Pearl District. She encouraged the city and the district to look at opportunities to charge developers to build a public school on the Central Post Office site.

NATALIE WILLIS, Ainsworth. Ms. Willis, an Ainsworth PTA Board member, expressed her appreciation for DBRAC's work to address overcrowding, but asked the committee to pause their work. She stated it's difficult to believe the committee could make a resolute recommendation to the school board having not given the community enough time to review a proposal brought forth only nine days previous, with only two business days to respond and offer solutions. She stated opposition against the current proposal to move Spanish Immersion program because of the traffic congestion and the uncertainty that many parents would continue to enroll their students at the facility.

TEOS ABADÍA, Ainsworth. Mr.Abadía, who moved to Portland from Colombia, noted that receiving his education in an English Immersion Program was immensely beneficial for him and he hoped hils children could connect to their heritage by participating in Ainsworth's Spanish Immersion program. He stated his children were more receptive to learning about their background thanks to their participation in the Immersion Program, and concluded testimony by asking DBRAC to keep the Spanish Immersion program at Ainsworth.

ERIC SCHNELL, Ainsworth. Mr. Schnell testified that Homestead, his neighborhood, had the largest nonwhite population on the Westside according to the 2010 Census and the highest proportion of tenants, and that these changes would make it impossible for many working families to address transportation and topography concerns. He stated he was circulating a petition to push city leadership to rearrange ways schools are funded to use money from residential development to fund a new school.

LAST WOMAN: Ms.____ testified that DBRAC wasn't adequately considering the transportation implications to neighborhoods with this change. She lamented the single lane roads with blind corners and circuitous routes, and encouraged the district to support walkable neighborhoods.

GUY, Rieke. Mr. ____ testified that he survived 175 parents from Rieke, who stated that the top priorities from the community were 1) preserving PPS' grandfathering policy, 2) preserving neighborhood cohesion, noting that the community was concerned about losing their walkability with the changes.

The meeting adjourned 8:22pm.

WRITTEN TESTIMONY

RUTH ANN ANGELL, Ainsworth. "As the principal at Ainsworth who implemented the beginning of what has for 29 years been a successful program in SE, it seems totally unrealistic to upset Ainsworth to solve the crowding at Chapman. There are plenty of other less complicated solutions. Ainsworth, West Sylvan, Lincoln are the tract that works. Pleaser don't destroy this amazing community."

KRISTI ATKINS, BRIDLEMILE. "Also, for the record as a Bridlemile resident I would rather prioritize walkability and neighborhood cohesion (i.e., maintaining the current 15-16 boundaries.) over maintaining the current West Sylvan/Lincoln boundary. Too be clear; I would rather keep Bridlemile boundaries change to Grey/Wilson then break up the Bridlemile Community."

SHAYNE BERRY, MLC. "Moving MLC will effectively collapse our program. PPS needs MLC and MLC needs the neighborhood it's in to exist, it is our curriculum."

JESSIE BLACK, West Sylvan. "Please consider allowing 8th grade students to continue onto the high school they have planned on attending. Please keep Bridlemile feeding into West and Lincoln."

GREER BRECHIN, Lincoln / Council Crest. "I thought you were able to pick the school you wanted to go but it looks like they are choosing. Transportation is one of the big things that has to be looked at because it will take me three buses and ninety minutes to get to Wilson. I currently go to a private school but I choose to go to Lincoln and now I can't and don't have an option to go to any private high schools now and going to high school in half a year makes me want to know, will you let me get the education I want? Thank you."

PARKER BROKER-KNAPP, West Sylvan / Lincoln. "I am in SI and Arabic and if I change to Wilson I have to choose between the two. This is very UNFAIR."

CHRIS CAMPBELL, Hillsdale / Rieke / Gray / Wilson. "Hillsdale roads do not have capacity for more cars driving west to Hayhurst, then back East to Barbur. Before making any decisions, please take the time to drive on Beaverton Hillsdale Highway, Dosch, Sunset during peak school driving hours. Thank you!"

STEPHANIE CAMPBELL, RIEKE. "Please consider the traffic nightmare that will ensure if the pocket of homes surrounding Robert Gray (SW Boundary Street and South to Beav-Hillsdale isn't able to walk to Rieke, we live a three-minute walk from Rieke. THANK YOU PPS AND DBRAC. Thank you."

QI CHEN and XIAOLING ZHAO, Ainsworth. "We disagree the boundary change plan, my daughter feels very sad of this news that means she will leave most of friends of her from Kindergarden. We think change boundaries isn't the best way to solve our issue. Thanks"

CARLOS CRESPO, Ainsworth. "The relocation of Spanish Immersion will have a detrimental curricular impact to the International Baccalaureate Program of Lincoln. One move will destroy two well run programs."

WIN AND PEGGY CHAMBERLAIN, Ainsworth 4th Grade SI, W. Sylvan Sixth Grade Community. "How will Gray and Wilson support SI if you move it out of Lincoln cluster? This is a deeply established, highly successful program careful consideration of what moving it would do to the program must be considered. DBRAC must go back to PPS and advise that this is an infrastructure problem due to urban growth and shuffling around students WILL NOT solve the problem you've been asked to work on. Please seriously consider temporary buildings at Chapman while PPS demands the city of Portland build new schools to support the growth. Moving children around is NOT a long term solution. Also, I know DBRAC has put countless hours into this and I thank you, but please send a representative to SW Council Crest, Ainsworth neighborhoods, etc.) and look at how infeasible it is to move the students you're proposing to move in terms of transportation, roads, walkability."

JENNIFER CIES, Skyline. "Please 1) Keep us from having to make an Insafe and unrealistic bridge commute 2) Keep us IB and value over IB feeder pattern as much as we are valuing other schools (e.g. immersion) feeder patterns."

SHERRILL CORBETT, Bridlemile. "Please consider the transition timeline as 8th grade student currently at West Sylvan here toured Lincoln twice and had new student events at Lincoln to prepare for ninth grade. Any change of high school would be determinate to these children."

MONICA CULLEN, RIEKE HILLSDALE. "Our community values protecting the environment and walkability to our schools is a big part of what we oppose the current plan. Thank you."

CINDY DEVINE, Rieke. "Please consider keeping neighborhood schools and their communities intact so that walkability, safety, traffic and busing of children are considered. Please also keep in mind the physical / natural boundaries that are present and are more complicated and convoluted and correlated in SW vs Eastside locations. Hills, busy neighborhood streets and Highways need to be evaluated. Moving focus schools to increase capacity for neighborhood schools should be a priority. Making minor boundary changes in SW is important due to already near full neighborhood schools, more capacity is needed in NW, keep it in that local, more focus school for necessary, increase in capacity to minimize need for additional boundary changes in 2-4 more years. Impact as few as families as needed, keeping neighborhoods together. Thank you, Cindy Devine."

JEFF DEVINE, Rieke. "Please…solve the problem instead of "kicking the can" over the hill."

REBECCA DOBERT, Ainsworth Neighborhood + SI. "Please don't move SI from Ainsworth – it will dissemble the program and cause hardship to many – will not provice ewutiable

programming and access will be difficult – no library, no after care, art music etc. Please don't divide our community.

TAYLOR DOREN, MLC. "As a resident of SW Portland, our commitment to get our child to MLC each day is strong. Our family is queer, trans gender, and bi-racial. We looked to focus, charter, and alternative schools and could not have been more thrilled to get into MLC. Our child deals with high levels of anxiety bordering, at times, on panic attacks. Additionally, she is a rule-follower to extreme and a "good" child. Our fear, for her, in an over-crowded school (which most of them are) would be that she would slip under the radar and not thrive in the ways she is thriving at MLC in a right-sized class, with the same teacher for 2 years who wholely supports and empathizes with her anxiety and family. Moving MLC across the river puts our ability to get our child to school at risk. Moving MLC to SW puts many N and NE families at risk for not being able to get their children to MLC. Please consider a different approach. Add more focus schools on the West side and re-open Smith!"

JEFF DEVINE, Rieke Elementary. "Please…solve the problem instead of "kicking the can" over the hill."

MAT DOLATA, Bridlemile. "Please keep Bridlemile (reconfigured or not) together through middle and high school at West Sylvan and Lincoln. Do not split Bridlemile kids between Lincoln/Wilson."

LAURA ELVES-MACE, Sylvan/Lincoln. "Writing to BEG you to not move the Spanish Immersion program. My children are THRIVING with it – but if given the choice to continue in Spanish, or remain at their current schools – they'd drop Spanish in a heartbeat. This would undo > 20 years of articulation and growth and support of the amazing Spanish program that has touched so many. Add a language program to Wilson – don't move mine."

GREG EPKES, Green Hills/Ainsworth. "My kids can walk to Ainsworth/Sylvan via the neighborhood trails and sidewalks without crossing Patton Road. Your flat map does not show the traffic issues and no sidewalks on Patton problem."

KAREN FROHNMAYER, Wilson. "It is unclear if neighborhood East of Dosch – Hamilton Would be redistricted to Lincoln Cluster. Unclear by comments made tonight."

MARTINA GAZELEY, Bridlemile. "The problems arise from overcrowding in the NW schools. Why change all the SW boundaries, and wreck havoc on these communities if E Sylvan could be used to help out Chapman, any of these proposed changes are ST and don't fix the LT problem, only stress communities. Bridlemile didn't want to be split between HSs, so why split the neighborhood for elementary school? Finally transportation/walking probls are huge with the new proposal."

WILL HARRIS, Ainsworth, West Sylvan, Lincoln. "Prioritize Neighborhood schools. To do so more magnet programs not students. Green Hills should stay connected to Ainsworth-Lincoln even if it means moving Spanish Immersion. Please do consider Pearl population growth could go across river with greater ease than up the hill."

JORDAN HORNICK AND EVAN NYHUS, West Sylvan. "Jordan and Evan spoke but did not get at finish. Please accept their speech in DBRAC's meeting minutes – see attached."

TIFFANI HOWARD, Homestead. "Please consider changing NO Westside boundary at this time but moving Eastside K-8 scenarios forward to ease their pain. Please consider exempting 9th graders from moving to avoid disrupting curriculum at a critical time (grades will matter) for college. Please consider using developer feeds to build schools where we need them."

EMMA HOWARD, Lincoln. "I am a student at West Sylvan. West Sylvan only prepares its kids for Lincoln not Wilson. If I went to Wilson, I would lose all of my friends. I know nothing about Wilson. I will be in ninth grade next year."

MATT JOHNSON, AINSWORTH / SYLVAN / LINCOLN. "Our community was only recently involved in the boundary change after initially being sent communication we were not involved. We have only had 10 days to understand how this improves us and need more time, we have had NO involvement in this process as were told we were not impacted. 1) We need more time. 2) This solution does not work because it is not informed by local knowledge. Safety concerns as our children could no longer walk to school and would have to cross dangerous roads. Boundaries don't make sense. I will drive 25 minutes to drop my kids off, 15 minutes into my drive possing people 10 minutes from Rieke commuting 20 minutes to Ainsworth."

VESA KELLER, AINSWORTH. "Homestead neighborhood resident. We need more time to respond. Rather than a domino effect through the Westside, a short term solution in Chapman should be sought, followed by a new school."

ROBERT LITT, Rieke / Hillsdale. "Neighborhoods should go to their neighborhoods schools. Simple and true."

AIMEE LOBO-BERI, Homestead. "This is too late in this process to raise such changes. We need a long term fix. A new school downtown using $ from development."

LACY LOWRY, Rieke. "Upper Hillsdale cut into 3 different elementary schools – new and unmanageable traffic patterns in Hillsdale – unsafe traffic patterns through neighborhoods – losing walkability."

ERIC MACE, W Sylvan and Lincoln. "Spanish Immersion should you decide to move Spanish Immersion, please do not move existing kids in these programs, forcing them to have to choose between SI vs IB, Lincoln. Instead Please consider adding new SI/(and IB) program at Grey/Wilson and move new students into those new programs while leaving your amazing Spanish Immersion Programs intact at Ainsworth/W Sylvan/Lincoln."

DEBORAH MANDELL, Council Crest. "Transportation – I've written on this topic before. After 10 years as a resident of Mealy Heights, this is my first visit to Wilson High School. Also my first drive to Hillsdale in the dark and rain. I knew the drive was bad, but I didn't realize HOW bad. Lots of fog, potholes, standing water, which you can't see ahead of time. At least 2 cars barely miss hitting me coming up hill around blind curves. There are very few streetlights. I can't imagine Healy Heights students driving or being driven to school at Wilson when it's dark outside (don't forget extracurriculars) without their being tragic accidents every year. VOLUNTEERISM – without parent volunteers, Portland schools would not run. Period. Teachers are busy teaching. Volunteers raise funds, coach extracurriculars, are reading buddies, and a million other things without which (the schools would not function. Parents already

struggle to balance time with their own families vs volunteer time to benefit the Wider community of school children. The more distance and traffic you interpose between parents and schools, the more balance will be tipped in favor of parents staying home. I know the last thing I'm gonna want to do after two difficult commutes to school in a day is travel there a third time to volunteer. Losing parent volunteers would be a HUGE hit to Portland Public Schools."

JIM MARSHALL, Homestead. "No excuse for the rapid implementation. Give people at least a year to plan and adjust. I have a rising Kindergartner and we have to turn in preferences for focus options possibly before boundaries are drawn. Whether we get Ainsworth Spanish Immersion Preference is a huge factor in how we rank the options."

ANGELA MARSHELL-OLSON, Rieke. "My child is currently a third grader at Rieke Elementary. We ask that you consider keeping our community intact, and that you not divide the Hillsdale community. Please consider allowing children from Vermont Hills as well as Stephens Creek Crossing to come to Rieke. This should be a walkable community for all. Thank you for your work."

CINTHIA McCALL, Ainsworth / West Sylvan / Lincoln. "The biggest problem and its not being addressed, is that LHS is very overcrowded and it will increase because of the upcoming increase in density in the LHS area, which is being underestimated. Therefore, the best option is for all of Bridlemile and part of the area below Council Crest should go to Gray / Wilson. Wilson has about 13450 students, Lincoln close to 1800! Pressure from some affluent and connected Lincoln parents should not steer the decision-making. Also, Amy Kohmstamm (sp?) has, I believe, too much self-interest and influence in the process. My LHS student has to go to class in a church because of overcrowding!"

SHARNEL MESIROW, Bridlemile. "The current proposal impacting a very important part of the Bridlemile population is not satisfactory because it treats economically challenged populations differently. Bridlemile currently hosts children from mixed economic populations, but under the current plan they would be moved to Hayhurst which is neither accessible or near the established community. AT the very least the PPS Board should leave proposed grandfather clause in so that our children can maintain critical relationships."

SUSANNE MENEZES, Bridlemile, West Sylvan. "I think moving Bridlemile from West Sylvan/Lincoln to Robert Gray/Wilson will sharply move the overcrowding problem of Lincoln to Wilson. Please leave Bridlemile the choice of Gray/Sylvan and the numbers at these schools will stay evened out. Please consider building a new Middle School for Forest Heights and Chapman)."

SUMMER MILLS, Rieke. "Scenario 2A cuts into our neighborhood pocket creating not 2 but 3 division of elementary schools – take Rieke students out of neighborhood for Middle and High School."

RACHEL MITRANI, MLC. "MLC is a very important asset to Portland. The current location is absolutely necessary in keeping the program viable. Question – where would you move it to? I think we deserve to know what you are proposing."

KEVAN MOFFETT, Bridlemile. "Bridlemile has capacity. Please do not remove only some existing families from Bridlemile as a sacrifice when Bridlemile can do its part to take NW students without kicking anyone out. Look to overcrowded Maplewood (see testimony tonight) to fill Hayhurst. DO not move MORE children North from the South (such as Odyssey to East Sylvan) When the N/NW is where the space is needed. Please find a way to use East Sylvan to relieve Chapman/Lincoln- geographically proximate and where the pressure is greatest. It makes no sense to use existing PPS floor space to host families from the overall less crowded southern Westside. Please do not sacrifice slivers of neighborhoods in order to win overall support from a neighborhood school majority community. We ALL want to stay in our closest neighborhood school. At Bridlemile, the capacity that exists means no one should have to leave. Use and make capacity where it is needed, next to downtown! Moving focus options such as Odyssey does not make the program go away and may make it more accessible to more neighborhoods."

DORTE MORSE, Ainsworth. "Clearly NO ONE were in favor of the current proposal It is simply not working!! Please find a different solution – add portables for now and do some well thought out long term planning. Thanks"

CARINA MONTERO, Lincoln. "Student in Spanish Immersion, I will be a freshman next year, West Sylvan prepares students for Lincoln not Wilson. I will miss friends."

ELISSA MORRIS, Maplewood. "PPS should have PLANNED for the urban growth and baby boom in 07-09 which was headlines in the news. Now its crisis and clearly moving a few boundaries really won't help[with crowding. Closed schools need to be rebuilt into 2 story sites and made bigger. Current schools need to be made quake safe and bigger too. PPS needs to try to secury emergy state and federal funding to allow for schools to be rebuilt bigger and structurally safe. So wasteful to spend a "little" here and there such as new roof at Maplewood, but the entire school is unsafe in an ewarthwuake and the classrooms are overcrowded and only going to get worse with infill and urban growth. Stop putting band-aids on these major issues and pay for major changes (bonds, ask/demand from state and fedral for more school funding) Portland has one of the worst education records. That should be enough to secure more funding."

KERRI NORMAN, Rieke / Hillsdale. "Do not tear Hillsdale apart! It is a thriving community which embodies the traits of Portland that make people want to move here. Rieke boundaries need to be left intact!"

KEITH OLSEN, Bridlemile. "I can currently walk to Bridlemile with my children. The third proposal would have my kids sent to Hayhurst. They would need to cross BHH. Walkability is important to neighborhood elementaries."

NOAH JACK PENWELL, MLC. "I started going to MLC in first grade. I have a big stutter when I talk. MLC was formed as a safe and comfortable environmental for my stuttering and other kids alike."

JENNIFER PODICHETTY, Rieke. "I would like the DBRAC to reconsider moving the SW Sunset boundary from Rieke to Hayhurst. Please save the walkability of our neighborhood school. Please consider using East Sylvan as relief for Chapman on the relocation of Ainsworth SI to East Sylvan. Please work to avoid the disruption of so many SW Neighborhoods."

ILME RAUDSEPP, Rieke. "Please reconsider the Boundary Changes – we walk to school and live on Mitchell Ct (the area between Sunset/Dosch/BH Highway. We use all the services in Hillsdale, The Walking commute for us in the center of our lives."

SHARON REESE, Ainsworth. "Don't relocate Ainsworth SI. It's very disruptive to a great program that encourages diversity but will have unpredictable actual movement as ½ of SI students are in neighborhood and 2/3 in Lincoln filter. Build an elementary school in the Pearl and avoid the domino."

LAURIE SCHICK, Bridlemile. "I would like to take a moment to mention our personal family story. When we originally moved to Portland we were walking distance to Smith School. When Smith closed we were concerned about our neighborhood being moved to Markham. We walked a mass exodus of families either transferring or going to private schools. When it comes time for our daughter to go to Kindergarten, I went to Markham's connect to Kindergarten and talked to other parents in the principal. We decided that school was not the right fit and were frankly underwhelmed by what we heard and saw. We entered the lottery process and were very pleased to be accepted into Bridlemile. We know right away it was the right fit, so much so, that we chose to sell our house off Garden Home to be part of the Bridlemile Community. We are happy where we are and our two kids are thriving. IT is ironic that now there is discussion to reopen Smith. I wished it never closed as we loved our previous neighborhood. I personally am okay with Robert Gray and Wilson as long as they can provide the same quality of education. Please don't fracture Bridlemile further and keep community whole. Thank you."

KIA SELLEY, Ainsworth. "Keep access to neighborhood schools for neighborhood residents! Please maintain transit access for us to our neighborhood school (on bus 51) so that we can pick up our children via transit from aftercare. And please maintain our walkability to our neighborhood school onstreets that are safe for our children."

EVAN SERFASS, Bridlemile. "The plan proposed Jan 9 disrupts many communities on the West Side – tonight's turnout is a measure of that. Please come up with a new plan that does not rupture these communities. Bridlemile has extra capacity – rather than excise the portion South of Hamilton, please keep it in its natural neighborhood at Bridlemile Elementary. Please realize that Ainsworth was over represented during the Comment period."

AMBER SIMS, Bridlemile. "The proposed new line for South of Hamilton Rd, excluding families is RIDICULOUS. My daughter deserves to walk to school; we moved into the neighborhood; just 6 months ago to specifically attend the same school her 3 cousins currently attend, who live just 3 blocks away."

JUDY SIMS, Bridlemile. "Avoid changes that remove possibility of walkability. PLEASE retain current South of Hamilton boundary inclusion. Our 2 families live within 1/4th of a mile. All close to Bridlemile, one north and one south of Hamilton; don't separate us (with one preschooler expecting with joy to join her cousins at Bridlemile."

JENNY STAAB, Hayhurst. "Hayhurst will need an enrollment backfill as soon as Odyssey moves. Please adjust over boundaries to ensure our enrollment > 400 AND suspend the grandfathering to prevent under-enrollment and programming loses for our diverse student body."

LARA SPANGLER, West Sylvan / Green Hills – Ainsworth. "The current scenario significantly impacts us in Green Hills with only 1 bottleneck entry to the neighborhood. Public transit is connecting our neighborhood to Ainsworth and Lincoln but not Bridlemile. Keep Green Hills neighborhood connected to Ainsworth and Lincoln as it has been for decades! Remember the PPS Priority to support neighborhood schools. The Ainsworth / Council Crest / Green Hills neighborhood should be supported rather than divided."

JASON STIFFLER, Ainsworth/Homestead. "Removing Homstead and/or SI from Ainsworth would exacerbate existing inewuality while not offering any real solution for long term overcrowding. Please do not redraw the boundaries either for Ainsworth or for the many other SW communities that will suffer similar problems. We need more instructional seats – not the magical thinking of boundary realignment."

NELLIE SUESS, Rieke, Gray, Wilson – Hillsdale. "I live in that little hidden neighborhood that was left out and then remembered to be brought up on the map by PPS. Our little neighborhood would be divided up into three elementary schools. Imaging going from 1 bus to 3 buses, Plus, 2 more for the middle schools and an additional one for Lincoln – That is six buses in one little neighborhood that used to have one! Please do not split up our neighborhood."

CHRISTINE SURRATT, Rieke. "Please consider keeping schools that have safe walkable routes intact. We have the ability to walk to all three schools and this should be embraced not disrupted. Also neighborhood schools should take priority over Focus Programs."

JASON SURRATT, Rieke. "Don't break up a walkable community! Please note PPS states a goal of walkable schools – stick to that and keep neighborhoods together."

WILLIAM SWAN, MLC. "Do not relocate MLC! Where will the students go? Chapman has other options! I love this school and it will not survive a relocation!"

ANN TSEN, Green Hills / Ainsworth. "Please do NOT change Green Hills to Bridlemile or Council Crest to Rieke. There are many reasons but two key ones 1) traffic congestion and the multi-road intersection of Dosch, Patton, Talbot, Humphrey etc. it is so bad at rush hours it can take 30 to go a mile. Green Hills has no outlet for cars except one road – Greenleaf that opens into this intersection. We currently get trapped by rush hour traffic and this will only get worse. There is NO remotely safe way for any adult or child to walk to Bridlemile while Ainsworth is easily safely walkable. 3) There is no public bus to Bridlemile 4) VERY few Ainsworth students currently in our neighborhood due to a diverse cross section of schools represented. Changing Green Hills' boundary will NOT make any dent in the Ainsworth overcrowding but will decrease home values significantly (according to realtors consulted by neighbors). We chose our house instead of a neighborhood nearby specifically to have access to Ainsworth over Bridlemile or Rieke."

NAOMI TSURUMI, Ainsworth Elementary and NW Portland. "Moving Spanish Immersion out of Ainsworth will not only NOT solve crowding at Chapman or Lincoln, it will severely destabilize this program. It is a SUDDEN CHANGE for the entire Ainsworth Community. More than half of SI kids live in Ainsworth and Lincoln catchments and would stay in those schools, minimizing the amount of relief this provides AND severely destabilizing the program. If there is not one solution that solves both Chapman and Lincoln overcrowding, then the solution should

LIMIT THE DOMINO EFFECT and address the problem close to the overcrowded school. Why are portables not on the table? A thoughtful discussion about making MI more equitable may be warranted but a one-week discussion under the exe of the DBRAC deadline is NOT the place to do it. PPS Policy states that implementation of changes only applies to the incoming students, as should be the case. However, this would not be the case for Spanish Immersion. The change would be sudden and difficult for hundreds of students"

MIKAELA VANDERPERREN, Odyssey/MLC/Le Monde Charter School. "On the PPS Website, SO FEW "options" programs are on the West Side. DO NOT move the few that remain from the West side. MLC should remain on the West Side! East Sylvan would allow MLC students access to TriMet/the city while staying on the WEST side. Odyssey is open to Smith which seems like a great space. Jackson 6-8 doesn't seem to "fit" Kindergarteners – 8th graders."

KATHERINE VALLS, Homestead / Ainsworth / Lincoln. "Moving on kids to a new school away from the friends and relationships they've worked so hard to form would have lifetime effects, especially as it relates to the educational and development goals that have been in the works since before they were born. It seems the boundary changes are all based on the assumption that building or repurposing buildings to create new schools is not an option,. If one school is underutilized, repurpose part of it. If a school is overcrowded due to high density housing that the city is rewriting in areas like The Pearl, create a new school to serve that area. You can move boundaries 'til the cows come home but it won't solve the crowding problems that higher density housing creates. Why would you want to disrupts hundreds of families, established and rooted families, to accommodate people moving into new areas like The Pearl or some of the housing developments in the city."

LUIS VALLS, Homestead / Ainsworth / Lincoln. "We moved to our neighborhood almost 15 years ago EXCLUSIVELY for the Lincoln district, for the education of our children and for the desirability of the neighborhood. The proposed boundary changes destroys BOTH, and devalues my property."

LESLIE WEAK, Bridlemile. "Moving focus option schools on the West Side like Spanish Immersion, Odyssey and MLC should absolutely be considered. If not then PPS is hypocritical considering its treatment of programs like ACCESS Academy which existed in deplorable conditions at Sabin (ancient Portables) and now being asked to leave their home at RCP. How lucky these West Side focus options schools are to not be treated like Access."

JANINE WIRTH, SW PDX. "How much longer is the lease to the Montessori school on SW Carolina / SW Nebraska near Macadam and Taylor's Ferry? (Relieve overcrowding at Chapman and keep Bridlemile intact. Send those kids to Jackson then Wilson."

ANNE WINTHROP, Ainsworth. "Excellent moments made by the hundreds of parents here tonight. One additional, key factor to consider in the proposed move of SI to East Sylvan – RG – Wilson: the program will not fit in the East Sylvan building. Current SI enrollment exceeds 320 students. That exceeds capacity at East Sylvan. In addition, a dual [sic] for each grade requires 16 core classrooms and Sylvan only has 13. Not even considering room for ANY potential specials, extras, etc. Not only does it not fit – it does not allow for GRANDFATHERING. It

does not work for a program more as it needs to be located in one place or another. This would require all students in all grades and more as early as next fall. This is a tremendous burden to put to students and families and directly conflicts with core DBRAC values. Please do not overlook these essential FAILURES in the idea of moving SI out of Ainsworth. Thank you for your time."

KESTER WISE, Ainsworth SI. "First, thanks for your diligence on such a difficult task. Your service is truly appreciated. Please contact me if you would like an overview re: why moving SI is unworkable. Unfortunately, 100% of the parents I have spoken with will revert to their neighborhood schools if SI is moved to East Sylvan (even if still Lincoln cluster) I will have to do the same with a heavy heart. It will be tragic if the program is lost on our watch. A program with thousands of stakeholders spanning decades. Please do not move Ainsworth Spanish Immersion."

LUCA, Ainsworth Spanish. "Please don't take my school away. It is awesome I will lose my best friend. His name is Bodi."

JOHN, Bridlemile. "Please have the burden of all boundary changes shared EQUALLY among schools. West Sylvan should NOT become a split feeder school, since it would impact Bridlemile more than others. Bridlemile SHOULD attend West Sylvan and Lincoln. Thanks! Neither Bridlemile NOR West Sylvan should become split feeder schools."

HOLLAND, MLC. "Don't take our school Chapman!!! Lay of!"

Anonymous, (No school listed). "Given that we (and the district) are concerned about equity in Portland, the most recent iteration of boundaries gives one pause, how can it serve the goal of equity and schools with a mix of socioeconomic students to reduce the number of families eligible for free/reduced lunch even further at Bridlemile? This looks more like gerrymandering than reasonable reallocating boundaries. To encourage SW Parents to accept change, the district could go a long way by making IB program available at all schools / and make schools more equal in curriculum."

ANONYMOUS, (No school listed). "DBRAC and PPS, given rapid increase in PDX population, need to discuss the importance of WANT based focus school programs vs NEED based neighborhood schools and lack of reliable space."

ANONYMOUS, (No school listed.) "Please make PPS schools more equitable and make the hard choices. Entitled SW Parents need to realize that they are rats fighting for crumbs. Our schools are overcrowded, our teachers overwhelmed, and THE Portland's longstanding racial, and socioeconomic problem is evident in its schools. Lastly, the district is headed toward mediocrity because the TAG program does not work to the longstanding funding problems are evident everywhere."
