ENROLLMENT/PROGRAM ISSUE WORKSHEET

School: Chapman **Principal: Scott Choate** **Senior Director: Lisa McCall**
Form completed by: Judy Brennan **Draft Date:** 12/10/2014

PART ONE: Current configuration

Students by grade		Instructional Spaces		Teachers		Comparisons	
K	124	Classrooms (full access)	16	Classroom Teachers	26.00	Utilization (c)	115%
1	107	Classrooms (grade limited)	10	Electives	1.50	Utilization rank (d)	2 of 15
2	111	Total Classrooms	26	Special Ed	2.50	Enroll change '13 to '14	37
3	121			ESL (.5 wt for utilization)	1.00	Student: teacher ratio	22.2
4	95	Instr support rooms(a)	4	Total	30	Ratio rank(e)	5 of 15
5	118	2013 Demographics				Est 15-16 utilization(f)	117%
6		Students of color	29%	Instructional support (b)	1		
7		Students who qualify for F/RM	29%				
8		Students who qualify for ESL	6%				
Total	676	Students who qualify for SPED	10%				

Sources: preliminary 2014 enrollment, staffing and classroom counts; demographic data from 2013 enrollment profiles
(a) Instructional support rooms are spaces that do not qualify as classrooms but can be used for small group student support and instruction.
(b) Instructional support staff includes counselors, instructional specialists and coaches, student management specialists and other staff who may meet with small groups of students to provide support and instruction
(c) Utilization is the number of teachers who would normally be assigned a full classroom (ESL 1/2 wt, no PE) compared to the number of classrooms on a campus
(d) Utilization rank among 15 schools monitored for overcrowding. The average utilization in this group is 101.4%
(e) Student: teacher ratio rank among 15 schools monitored for overcrowding. The average ratio in this group is 20.4
(f) 2015-16 utilization assumes same K enrollment next year as this year, and that current class sizes below 25 at grades 1-5 could be compressed to fewer sections (does not assume creating additional multi-grade blended classrooms)

ENROLLMENT/PROGRAM ISSUE WORKSHEET

School: Chapman **Principal: Scott Choate** **Senior Director: Lisa McCall**

PART TWO: Issue summary

Chapman has grown by 150 students in the past four years, primarily due to new construction within the boundary. Several small projects have occurred to maximize classroom space and other instructional space. Staff is currently doubled up in large rooms located on the school's lower level. With no change, Chapman will likely need two more classrooms next year, and additional classrooms in the future.

Cause of the enrollment change	Neighborhood enrollment growth
Is this issue new this year?	YES NO
Potential implications if no change next year	Higher class sizes/insufficient common spaces

PART THREE: Options to address issue

Change type	Cost	Timeline for decision	Decision-making process	Related impacts	Benefits	Risks	Feasibility rank
Boundary change-2015	n/a	Winter 2014-15	D-BRAC to Superinten-dent to School Board	Space at a different school	Reduced population	Loss of program; greater distance for some families	#1
Boundary change-2016	n/a	District-wide boundary review, implement in 2016 or later			Reduced population	Loss of program; greater distance for some families	#1
Grade reconfigur-ation	Likely	District-wide boundary review, implement in 2016 or later			Reduced population	Significant program/staff changes	#2
Higher class sizes @ some grades	n/a	Spring 2015	Principals/OSP		Frees up 1-2 classrooms	Loss of personal instruction time	#3
Divide large rooms	yes-$$ tbd	Winter 2014	Facilities/OSP		Creates 1 additional CR, 2 support spaces	May be cost prohibit, require system upgrades	#4
Move Special Ed program	n/a	2015 or later	Special Ed department	Space at a different school	Frees up 1 classrooms	Relocates thriving program	#5
Modular classrooms	$400k+	Winter 2014	Facilities/OSP/ Superint.		Adds two classrooms	High cost change does not fully resolve space issues	#6
