Growing Great Schools: Enrollment Balancing

Data and Information Requests

11/19/15

Objectives

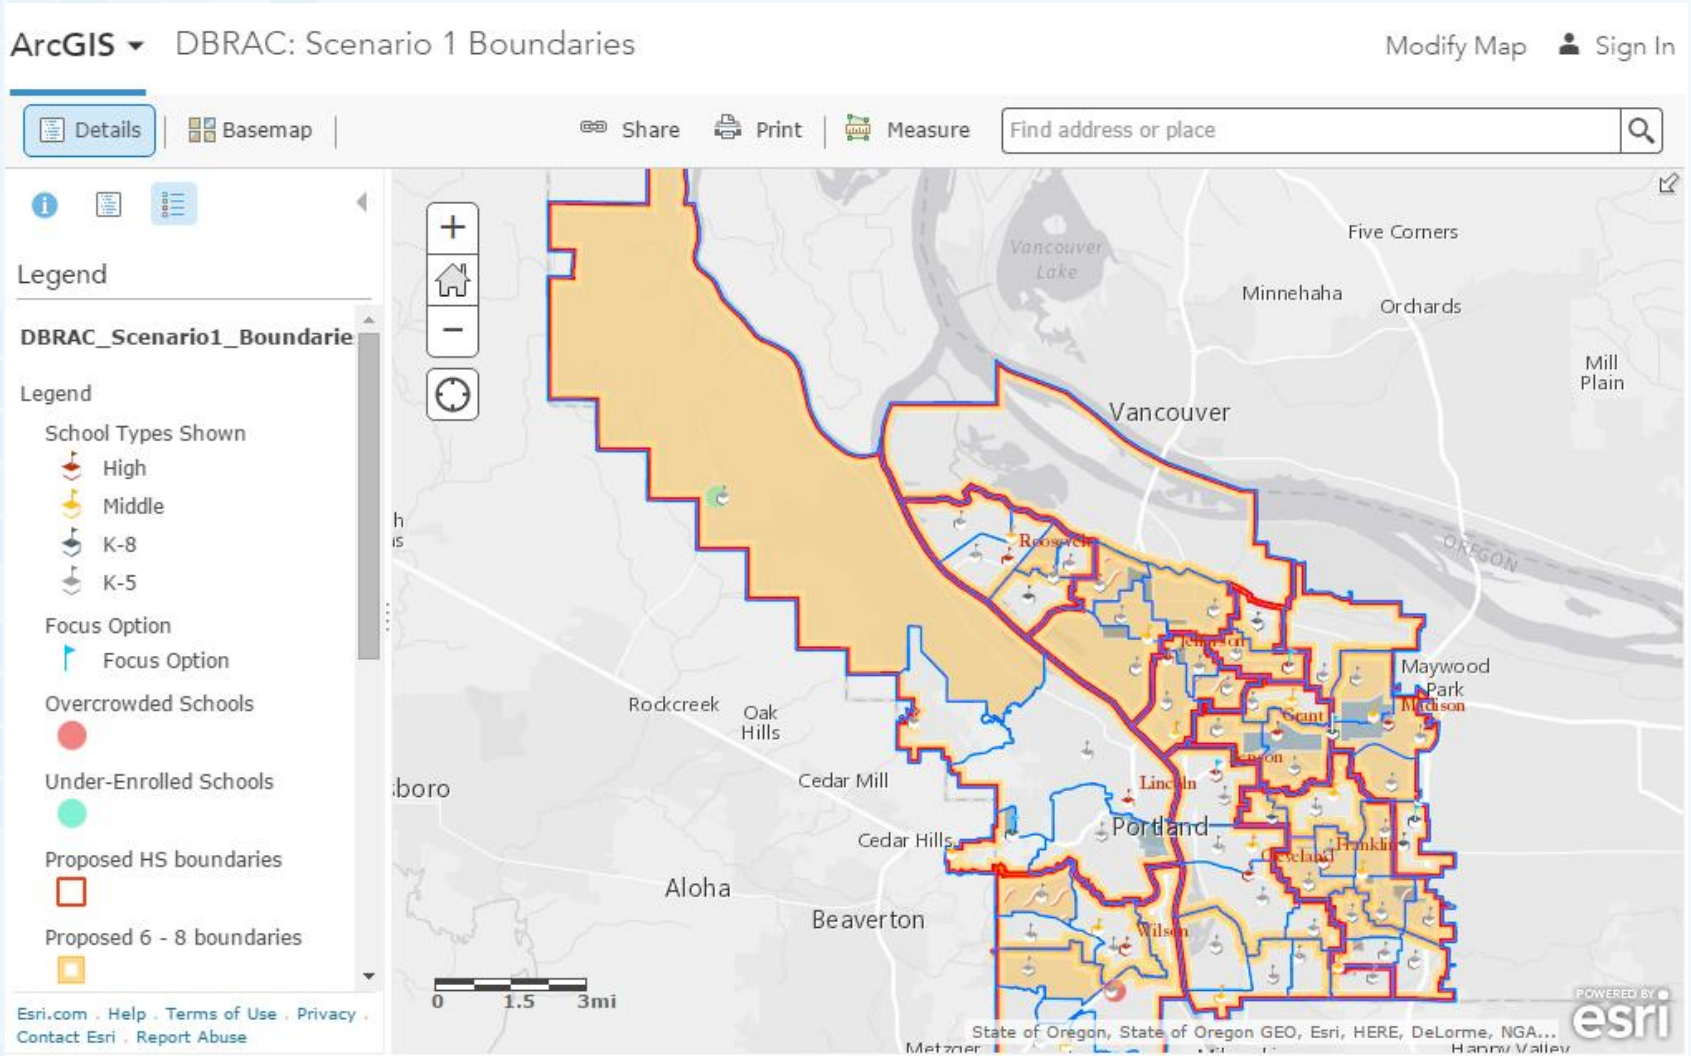

- Review new information available to DBRAC and the public
- Discuss process for addressing information and data requests from DBRAC
- Better understand what information or data you need prior to the next DBRAC working session

New Information Available

- Enrollment Balancing “Key Data and Technical Documents” website
- Interactive web maps
- School Reports
- Planning Area Maps
- High School Enrollment Report
- School by School Potential Implementation
- Best practices in District Rezoning
- Technical FAQs document
- Implementation plan

Interactive web maps

Purpose: Type in your address to see what school you might be assigned to under various scenarios

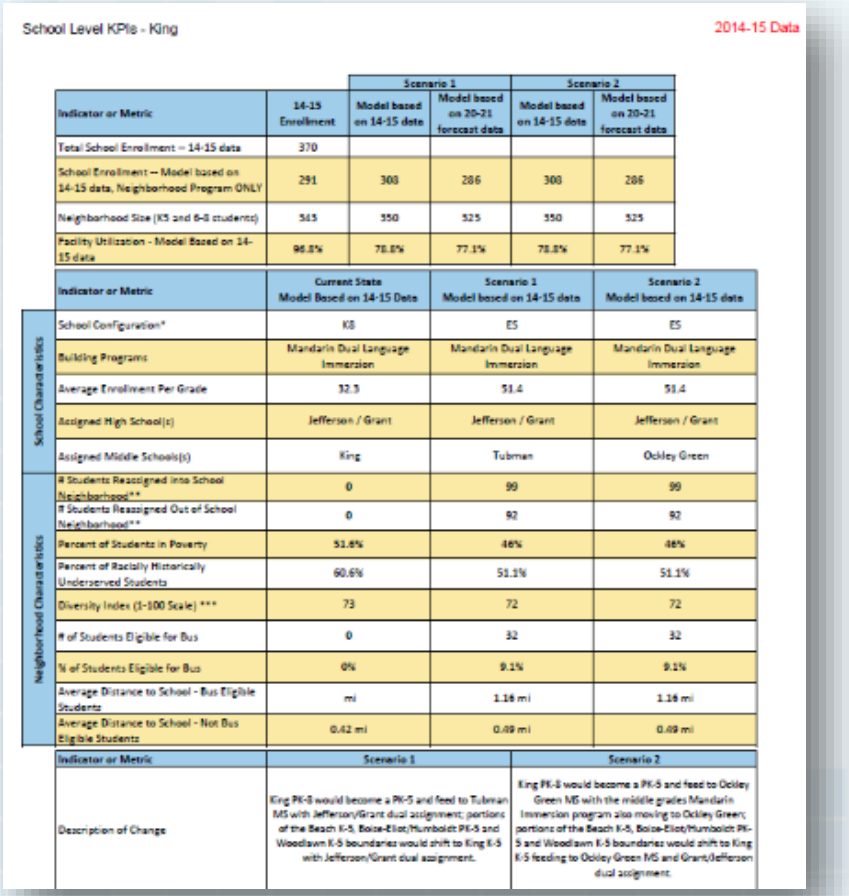

School-by-School Potential Implementation

Purpose: Provide some possible timelines around implementation phasing

Enrollment Balancing Scenarios November 2015: School-by-School Potential Implementation-DRAFT for DISCUSSION

	Scenario 1 Impact	Scenario 1 Potential Implementation			Scenario 2 Impact	Scenario 2 Potential Implementation		
School		Reconfiguration-General	Boundary change	Special Programs/Other		Reconfiguration-General	Boundary change	Special Programs/Other
Abernethy	A portion of the Abernethy K-5/Hosford MS/Cleveland HS boundary would shift to Creston K-5/Kellogg MS/Franklin HS.		Begin standard BC in year that Creston reconfiguration begins		A portion of the Abernethy K-5/Hosford MS boundary would shift to Creston K-5/Hosford MS.		Begin standard BC in year that Creston reconfiguration begins	
ACCESS	No change.				ACCESS Academy 1-8 moves from Rose City Park School to Kellogg and would be co-located with Creative Science School.			Move in 2017 or later. Dependent upon Kellogg opeing date
Ainsworth	A portion of the Chapman boundary would shift to Ainsworth K-5.		Begin in 2016	Overcrowding at Chapman could warrant boundary change at a faster pace affecting more than just incoming kindergarten students in the first year.	A portion of the Chapman boundary would shift to Ainsworth K-5.		Begin in 2016	Overcrowding at Chapman could warrant boundary change at a faster pace affecting more than just incoming kindergarten students in the first year
Alameda	No change.				A portion of the Alameda K-5/Beaumont MS/Grant HS boundary would shift to Rose City Park K-5/Roseway Heights MS/Madison HS.		Begin in 2017, dependent on Rose City Park opening date	Boundary change could be implemented at a faster pace affecting more than just incoming kindergarten students in the first year. Special Ed focus classroom remains at Alameda.
Arleta	Arleta K-8 would become a K-5 and would feed to Lane MS; A portion of the Arleta K-5 boundary would shift to Marysville K-5 and feed to Kellogg, which will re-open as a middle school and feed Franklin HS. In addition, portions of the Marysville K-5 and Woodstock K-5 boundaries would shift to Arleta.	All students in grades 6-8 move in 2016 or 2017 to Lane, including including optional move for current transfer students	Begin standard BC in year that Arleta reconfiguration begins	Two special ed focus classrooms remain at Arleta and one shifts to Lane	Arleta K-8 would become a K-5 and would feed to Lane MS; A portion of the Arleta K-5 boundary would shift to Marysville (feeding to Harrison Park MS) while portions of the Creston K-5, Marysville K-5 and Woodstock K-5 boundaries would shift to Arleta K-5.	All students in grades 6-8 move in 2016 or 2017 to Lane, including optional move for current transfer students	Begin standard BC in year that Arleta reconfiguration begins	Two special ed focus classrooms remain at Arleta and one shifts to Lane

School Reports

School Level KPIs - King — 2014-15 Data

Indicator or Metric	14-15 Enrollment	Scenario 1: Model based on 14-15 data	Scenario 1: Model based on 20-21 forecast data	Scenario 2: Model based on 14-15 data	Scenario 2: Model based on 20-21 forecast data
Total School Enrollment – 14-15 data	370				
School Enrollment – Model based on 14-15 data, Neighborhood Program ONLY	291	300	286	300	286
Neighborhood Size (K5 and 6-8 students)	545	550	525	550	525
Facility Utilization - Model Based on 14-15 data	96.8%	78.8%	77.1%	78.8%	77.1%

	Indicator or Metric	Current State Model Based on 14-15 Data	Scenario 1 Model based on 14-15 data	Scenario 2 Model based on 14-15 data
School Characteristics	School Configuration*	K8	ES	ES
	Building Programs	Mandarin Dual Language Immersion	Mandarin Dual Language Immersion	Mandarin Dual Language Immersion
	Average Enrollment Per Grade	32.3	51.4	51.4
	Assigned High School(s)	Jefferson / Grant	Jefferson / Grant	Jefferson / Grant
	Assigned Middle School(s)	King	Tubman	Ockley Green
Neighborhood Characteristics	# Students Reassigned into School Neighborhood**	0	99	99
	# Students Reassigned Out of School Neighborhood**	0	92	92
	Percent of Students in Poverty	51.6%	46%	46%
	Percent of Racially Historically Underserved Students	60.6%	51.1%	51.1%
	Diversity Index (1-100 Scale) ***	73	72	72
	# of Students Eligible for Bus	0	32	32
	% of Students Eligible for Bus	0%	9.1%	9.1%
	Average Distance to School - Bus Eligible Students	mi	1.16 mi	1.16 mi
	Average Distance to School - Not Bus Eligible Students	0.42 mi	0.49 mi	0.49 mi

Indicator or Metric	Scenario 1	Scenario 2
Description of Change	King PK-8 would become a PK-5 and feed to Tubman MS with Jefferson/Grant dual assignment; portions of the Beach K-5, Boise-Eliot/Humboldt PK-5 and Woodlawn K-5 boundaries would shift to King K-5 with Jefferson/Grant dual assignment.	King PK-8 would become a PK-5 and feed to Ockley Green MS with the middle grades Mandarin Immersion program also moving to Ockley Green; portions of the Beach K-5, Boise-Eliot/Humboldt PK-5 and Woodlawn K-5 boundaries would shift to King K-5 feeding to Ockley Green MS and Grant/Jefferson dual assignment.

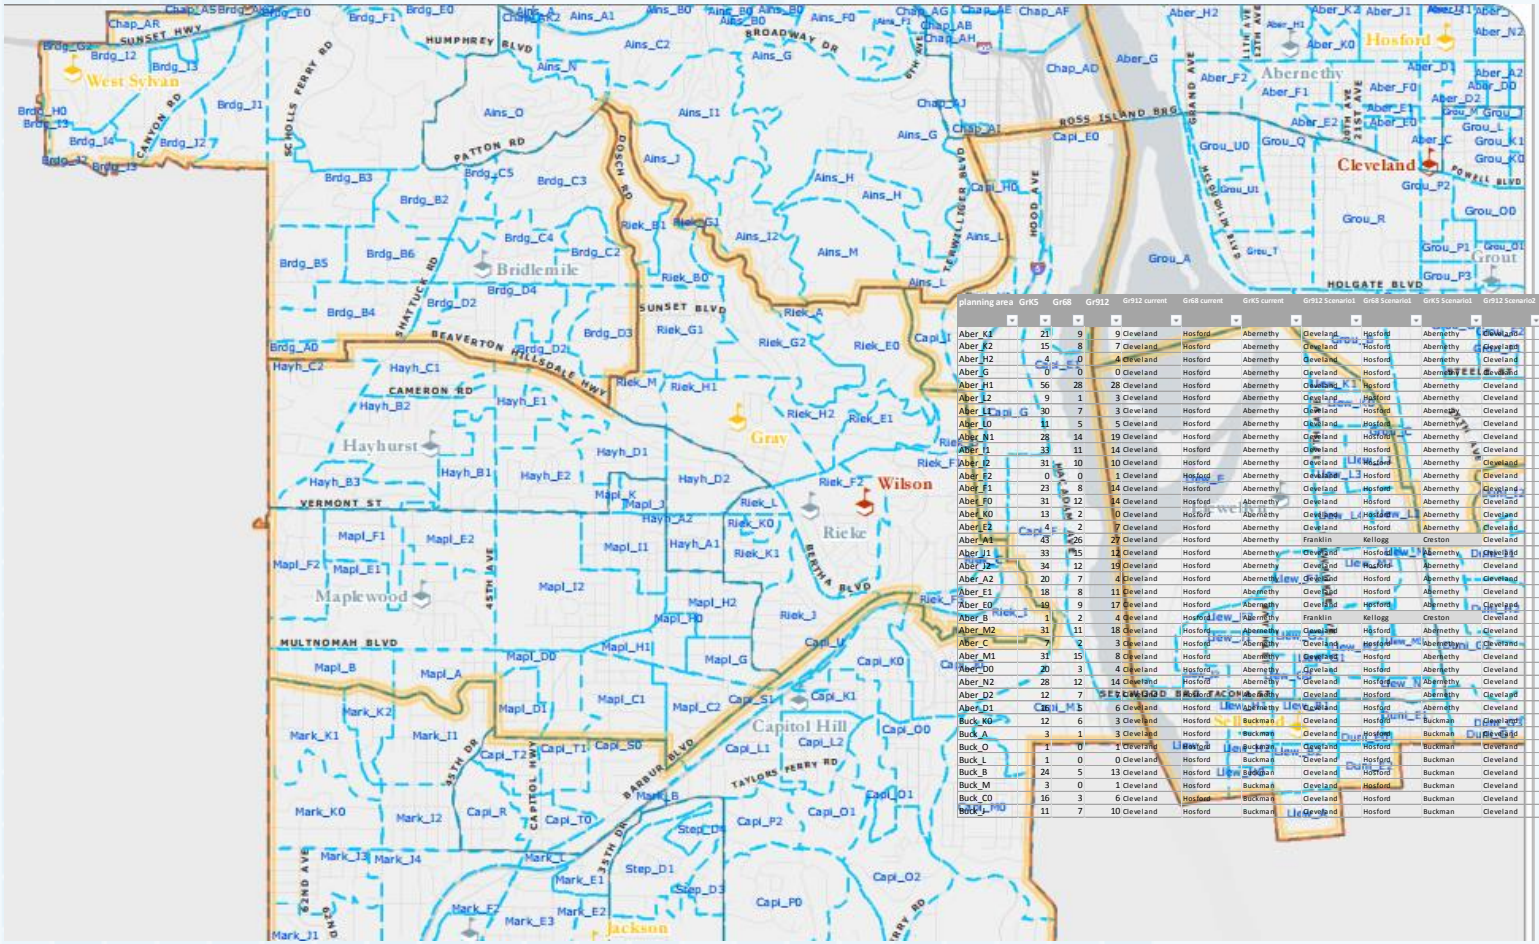

Includes new information including:

- Percent racially historically underserved
- Average distance to school for bus eligible students
- Average distance to school for not bus eligible students
- Etc…

Purpose: View how school level KPIs are affected under each scenario

Planning Area Maps

Purpose: use these documents to determine the neighborhood student population in each planning area. Build your own scenario.

Technical FAQ's

Purpose:

- provide a single source of information for technical questions from the District Wide Boundary Review Advisory Committee (DBRAC).
- Will be updated frequently

Data and Information Tracker - DBRAC

- Tracks in one place all of DBRAC's data requests

ID	Category	Information/ Data Item	Information Medium	If applicable, link	Who requested	Estimated Completi	Progress
50	Documentation	Complete technical FAQs document to house in one spot technical questions	Technical FAQs		DBRAC	complete	complete
62	Enrollment	Document how enrollment was derived	Technical FAQs - pg 8	TechnicalFAQsPublished11.18.15 (2).pdf	DBRAC	complete	complete
64	Enrollment	Threshold for middle school under-enrollment	DBRAC powerpoints / Technical FAQs - pg 8	TechnicalFAQsPublished11.18.15 (2).pdf	DBRAC	complete	complete
98	Enrollment	How many transfer students are in Skyline from the Roosevelt cluster?	Profiles email to DBRAC participant pg 95	http://www.pps.k12.or.us/files/data-analysis/2014-15_School_Profiles.pdf	DBRAC	complete	complete

Data and Information Tracker

- Distinction between identification of a risk and a data request
- Some data requests need further discussion before completing
- Some data requests revolve around displaying data differently or more clearly. These revisions will occur w/ the 2015 data refresh
- We are actively seeking ideas on what to model in a new scenario

Some items in progress

- Load 2015 enrollment data
  - will affect ALL published materials
  - Make improvements to how and what data is displayed
- Plans for expansions of DLI in the scenarios, as produced by the DLI department
- Impact to Special Education students
- Impact of PE 2017 law

Discussion Item

- What data do you feel is most important for you to access prior to the 12/5 DBRAC working session?

Discussion Item

- Enrollment impact beyond 2020
- Need further direction from DBRAC on what is wanted
