% More than 40% of students in poverty (see note)

% Underenrolled or overcrowded

Notes:

Oct 1 2015 data and capture rates were used for this analysis. Enrollment figures do not include PreK.

HU Race is Historically Underserved by race/ethnicity, including Black, Hispanic, Native American, and Native Hawaiian or other Pacific Islander.

% in Poverty is the number of students who qualify for free meals through direct certification by the State of Oregon. Direct Certification numbers reflect 2014-15 data.

Number re-assigned refers to the sum of students both re-assigned *into* and *out of* the school neighborhood and is a measure of change to a school neighborhood. Note that summing the Number re-assigned schools does not equal the total number of students re-assigned at the district level, as students are counted *both* for the neighborhood from which they were re-assigned and the neighborhood to which they were re-assigned.

The following elementary, K8, and middle schools have co-located focus option programs: Ainsworth, Atkinson, Beach, Beaumont, Bridger, Cesar Chavez, Hayhurst, Hosford, Kelly, King, James John, Lane, Lent, Mt. Tabor, Rigler, Roseway Heights, Scott, Sitton, West Sylvan, and Woodstock.

Average enrollment per grade using 2015-16 enrollment data is shown as under-enrolled if below 50 students per grade. The average enrollment per grade using 2020 forecast data is shown as under-enrolled if below 45 students per grade to allow flexibility for forecast enrollment and staffing formula changes.

(see page 2 for additional notes)
