INTERNAL STAKEHOLDER RESPONSE TO D-BRAC OPTIONS FOR CHIEF JOSEPH AND PENINSULA

Department	Option A-5: Begin boundary change from Chief Joseph to Peninsula	Option D-1: Move Chief Joseph 5th grade to Peninsula
Siliva Asson, Peninsula Principal	Brings stability to community. Something they can build toward…"We are going to be a Tech Smart school and the decision to have Option A in place I think would serve everyone best. I would advocate for a strong push for K-2 families to move to Peninsula allowing Chief Joseph's 4th grade students to finish their school experience at their home schools and allowing families to grow with their new schools."	To bring in the 2017 5th grade and then take them out would be a challenging situation for the incoming staff, students and families not just socially, but academically too. I am not sure where Chief Joseph staff or students are with PBIS, Literacy, Equity, CARE, AVID, etc, and think that this would set everyone up to struggle to understand a new setting and expectations when it isn't truly necessary.
Amber Gerber, Chief Joseph Principal	Community is in favor of being a K-5. Believes there is enough space to accomplish K-5 even without boundary change, with small facility changes.	Opposed to having 4th grade move to Peninsula for one year.
Transportation	Analysis underway. Likely one bus route next year, may be off-set by fewer CJ or OG buses. No neighborhood buses into Peninsula now.	Analysis underway. Likely 2-3 buses added with no reduction from other Chief Joseph routes.
Nutrition Services	Triggers need to re-establish Provision 2 (free breakfast for all Peninsula students): all students still receive free breakfast, but data about kids who eat breakfast has to be collected and used to establish future level of service. Repeat of process school had to go through this year.	Instead of triggering re-establishment for Provision 2, department could choose to end breakfast for all if it looks certain the school would fall below 40% DC threshold next year. Trigger would be repeated next year again (3 straight years)
Human Resources	5th grade positions eliminated at Ockley Green, but additional 6-8 coming. Seniority, credentials, teacher choice determines who remains and who goes. Conversation happens with principals. HR will pull SMT rosters for credentials, revisit last year's process and contract. If option D-1, 5th grade unassignment would have to be repeated the following year.	
Facilities	No known issues. Investigating the impact of holding K-5 at Chief Joseph next year without a boundary change.	Principal Asson is concerned this move would require numerous internal classroom moves.

INTERNAL STAKEHOLDER RESPONSE TO D-BRAC OPTIONS FOR CHIEF JOSEPH AND PENINSULA

Department	Option A-5: Begin boundary change from Chief Joseph to Peninsula	Option D-1: Move Chief Joseph 5th grade to Peninsula
Special Ed		Please keep in mind that there are two Focus Classrooms for Communication & Behavior at Peninsula. The impact of a large group of additional 5th graders filling the rest of the school space should be taken into account. I don't know that there would be significant negative impact but perhaps it could be discussed with current Peninsula staff and building admin.
ESL	Chief Joseph and Ockley Green are two of the smaller EB population schools. Historically, their numbers have been dropping and that is also true of Peninsula. Both schools in past have added FTE above the actual by count allocation due to two decisions rules: 1) Ockley and CJ being two campuses and 2) Peninsula have less than 1.0 FTE but several students across the grade span. For both schools they have received at least 0.5 more FTE due to these two special considerations. Allocations for next year will be based on K information.
