Introduction

Charter schools in Oregon are defined in statute as "...a legitimate avenue for parents, educators and community members to take responsible risks to create new, innovative and more flexible ways of educating children within the public school system. The Legislative Assembly seeks to create an atmosphere in Oregon's public school system where research and development of new learning opportunities are actively pursued." (ORS 338.015)

The charter schools sponsored by Portland Public Schools provide educational options for students and families as well as diversity of professional opportunities for school employees. While the district provides oversight and support to its sponsored charters, each charter school is an independent, nonprofit organization that has autonomy over its mission, strategic planning, budget, hiring, policies, and the development and implementation of its educational program.

Portland Public Schools is responsible for maintaining high standards for its sponsored charter schools, and for ensuring that charter schools are compliant with all applicable laws, that their academic programs are successful, they are financially viable, and their organizations are effective and responsibly managed. The district balances oversight with an understanding of the independence and autonomy afforded public charter schools by law.

In so doing, PPS has established the following performance framework, which is informed by best practice from the Core Performance Framework and Guidance developed by the National Association of Charter School Authorizers (NACSA). This performance framework is designed to measure each charter school's academic, financial, and organizational performance, and to "...guide practice, assess progress, and inform decision-making over the course of the charter term and at renewal."[1]

Because each charter school's story and perspective on its own performance is critical to a balanced evaluation process, each measure includes space for narrative explanation and/or further description from both the district and the charter school. It is our hope and goal that PPS and the charter school will fully engage in the process of program evaluation each year and at the renewal period, and that this process contributes to the continuous improvement of each charter school and the PPS Charter Schools Office.

Academic performance: data elements and sources

The purpose of the Academic Performance section of the Annual Performance Framework and Report is to evaluate whether or not the charter school's educational program is showing success with its students.

Many of the indicators for this section are adopted from the National Association of Charter School Authorizers' "Core Performance Framework and Guidance", while the performance targets and ratings are aligned with the targets and ratings in the Oregon Report Card.

Note: Since the 2017-18 school year, the Oregon Department of Education (ODE) has not assigned summative, overall ratings to schools on the Oregon Report Card. Instead schools are rated on up to 6 (for k-8) or 9 (for HS) separate indicators.

The following data elements and sources are used to complete the Academic Performance analysis:

- The charter school's Oregon Report Card
- The charter school's State Assessment results
- The charter school's contract
- The district's Oregon Report Card
- The district's State Assessment results
- Performance and growth information for comparison schools, as defined by the Oregon Department of Education
- The Administrator's Dashboard

Additionally for high schools only:

- The school's graduation rate
- The district's graduation rate
- The school's completion rate
- The district's completion rate
- The school's freshmen on track rate
- The district's freshmen on track rate
- The graduation, completion, and dropout rates of comparison schools, if applicable, as defined by ODE

Additionally for grades 6-12 only:

- The charter school's alignment to Common Core State Standards as evidenced by course syllabi, course descriptions, curriculum alignments, etc.

The 3-year Trend Performance Summary chart at the end of this document will report the ratings from the most recent 3 years of available academic performance data (2022-23, 2023-24 and 2024-25). The Financial and Organizational sections will include summary data from the three most recent school years.

District comments/recommendations:

Portland Arthur Academy students in grades 3-5 met the academic ODE Level 2 target Average Gap Score Change of -19 or higher in ELA which does not meet the standard. This is not a concern for the District.

School comments: While we did not meet expectations in this area, we remain confident in our program and instruction and believe students made strong academic growth.

Since we have a smaller sample size of students taking the assessment, average gap scores tend to fluctuate much more, since the performance of just a few students can significantly impact year-to-year ratings.

Measure 2b
Are students making expected annual academic growth in MATH compared to their peers? (For 2024-25 this is measured by Average Gap Score Change)

E=Exceeds standard:

**Metric is based on 2-year combined average

District comments/recommendations:

NR = Not Rated
The School did not meet the standard for annual gap score change for Economically disadvantaged students and Historically underserved by race/ethnicity. This is not a concern for the District. All other subgroup were too small to measure.

School comments: PAA will continue to monitor this area and identify additional opportunities to support students and families. The instructions listed below are provided to ensure all students have the greatest opportunity to succeed.

Since we have a smaller sample size of students taking the assessment, average gap scores tend to fluctuate much more, since the performance of just a few students can significantly impact year-to-year ratings.

Measure 3b

D=Does not meet standard:
☐School's percentage of Regular Attenders does not meet the Level 3 indicator by grade level but is not below the 10th percentile of performance for the grade level group

F=Falls far below standard:
☐School's percentage of Regular Attenders is below the 10th percentile of performance for the grade level group

Data:

All Students K-5						
%	92	162	74.6	+17.4	85	***M***

*MIP (Measures of Interim Progress) are statewide targets for school accountability indicators determined by the Oregon ESSA Plan

District comments/recommendations: The school's percentage of regular attenders falls just shy of the Level 5 benchmark of 93%, and exceeds the District's percentage of regular attenders by 17.4%. This was a particular focus for the school in 2024-25. They increased their regular attender rate from the previous year by 11.1%.

8. School goals and recommendations (academic)

Measure 8a
Did the school meet the academic goals it set forth in its 2024-25 Performance Plan?

Goal set in Plan	Goal achieved? (School response)	How or why not? (School response) Include any professional development implemented to support this goal.
The percentage of students in 3rd-5th grade who scored a 3 or 4 on OSA Math in the 23/24 school year will increase in the 24/25 school year.	This goal was achieved. We increased from 50% to 54%.	We implemented intervention programs during and after school for students who required additional academic support and clarification of lessons. Alongside these interventions, we collected and reviewed data daily to determine when students were ready to progress to the next lesson. To make learning both fun and engaging, we created an **IXL Club**, where students could receive additional support while collaborating with staff and peers. We also introduced the **Dino Depot**, a schoolwide incentive system

		in which students earn “Dino Dollars” for their hard work and positive effort. Once a week, students visit the Dino Depot to purchase items of their choice. To further support student growth, we developed individualized IXL checklists focused on specific skill areas needing improvement. These checklists served as ongoing learning tools that students worked on consistently throughout the school year. During breaks and long weekends, we encouraged continued engagement through **IXL Challenges**, allowing students to practice their skills while earning additional Dino Dollars.

Measure 8b
In school year 2024-25, did the school implement the academic recommendations from the district in the 2023-24 annual performance report (if any)?

Recommendation from the district	Recommendation implemented? (School response)	How or why not? (School response) Include any professional development implemented to support this goal.
In the 2023-24 Performance Framework, the District recommended the school continue to focus on learning recovery in math achievement in the 2024-25 school year.	The recommendation was implemented.	We have continued to conduct a thorough analysis to identify opportunities for improvement. We take this recommendation seriously and recognize it as an area in need of continued growth. We are committed to refining

		our instructional approach to build a strong and sustainable mathematical foundation for all students. Over the past four years, we have seen an increase in overall OSA math achievement scores for all students. To further support this progress, we have added additional math support and are piloting a new program, **IXL Takeoff**, in addition to the systems already in place.

Measure 8c
Based on the 2024-25 school year data presented in this report, will the school add any academic goals to its 2025-26 Performance Plan? (Copy and paste as needed for additional goals.)
