Exhibit B

May 2025 GO Bond Election

EXPLANATORY STATEMENT (500 words)

If approved, this measure will allow Portland Public Schools to continue to prioritize schools in need of large-scale repairs and replacements to address safety hazards and to fix failing infrastructure.

This measure is not expected to increase tax rates above the level targeted by the 2017 bond.

In 2012, 2017, and 2020, voters approved capital bonds that funded improvements to many of Portland Public Schools's aging buildings, creating modern, safer places for students to learn.

Since 2012, the bond program has fully modernized eight schools, with three more under design. In addition, the bond program has addressed some of the infrastructure needs at every school throughout the District.

Prior investments include:

- Roosevelt, McDaniel, Franklin, Grant, Benson, and Lincoln High Schools, Kellogg Middle School, Faubion PK-8, and the Multiple Pathways to Graduation building were fully modernized.
- Full modernizations of Jefferson, Ida B. Wells, and Cleveland High Schools are in design.
- Health and safety improvements, including:
    - Replacing plumbing to reduce lead and improve water quality;
    - Removing or encapsulating exposed lead paint and asbestos;
    - Upgrading fire alarm and sprinkler systems;
    - Repairing or replacing leaking or deteriorating roofs;
    - Mitigating radon exposure;
    - Strengthening school safety and security.
- Educational improvements, including:
    - Upgrading science labs;
    - Enhancing technology;
    - New curriculum materials.
- Accessibility improvements for children and adults with disabilities.

<u>What Would the Proposed 2025 Bond Fund?</u>

If approved, bond funding would address additional building, health, safety, and learning needs in schools across the District, while continuing PPS's plan to comprehensively address facility needs by improving all of our schools over the long term.

If approved, the bond funds will:

Update and Repair Aging Elementary and Middle Schools:

- Update or replace leaking or deteriorating school roofs, mechanical systems (heating and cooling), and other building repairs

Make Schools Safe and Secure:

- Update safety and security systems - including additional cameras, fencing to protect students and staff
- Seismic upgrades

Modernize, Improve Educational Materials, Technology, Schools:

- Renovate/replace Cleveland and Ida B. Wells (formerly Wilson) High Schools
- Utilize any high school improvement cost savings to update/repair elementary and middle schools
- Provide comprehensive, culturally relevant, and current curriculum materials across core and supplemental subject areas
- Replace or provide student tablets and laptops to provide equitable access to classroom learning, and update classroom and District technology

Increase Extracurricular Opportunities:

- Upgrade athletic facilities, including needed improvements for Roosevelt, Lincoln, Franklin and Grant and create athletic hub facilities at Jackson Middle School and Marshall campus.
- Update high school performing arts/theater facilities.

What Would the Bonds Cost?

Because the tax rate on existing bonds is scheduled to decline, PPS's bond tax rate is not expected to exceed the previous estimate of $2.50 per $1,000 of assessed value. The total principal amount of bonds authorized by this measure cannot exceed $1.83 billion.

Oversight and Accountability

An independent group of community members will review quarterly reports and audits of how

the bond dollars are being spent to provide accountability to the public until construction is completed.
