CHS Sites

(3) Track Site
6.5 acres
(1) Main Site
4.0 acres
Powell Boulevard
(2) Parking Lot Site
1.0 acre

CURRENT CHS SITE
254,000sf

>4 acre main site; smallest in District
>On Powell Boulevard (state highway)
>2-3 story configuration fills entire site
>No secure outdoor space for students
>No extra space for construction logistics; parking lot separated by 26th Avenue

CURRENT CHS SITE
254,000sf

PROPOSED DESIGN ON SITE
295,000sf

Meeting Board Framework

Topics for Review

- Contractor Cost Reductions
- Building size
- Health & Teen Parent Centers
- Athletics
- Climate Policy/ LEED
- Other Cost Reductions

©MAHLUM

Board Framework

Contractor Cost Reductions

> Working on efficiencies in General Conditions including tower crane requirements, worker parking, and management staffing
> Contractor fee amount reduces with overall cost reductions

Equity in Contracting

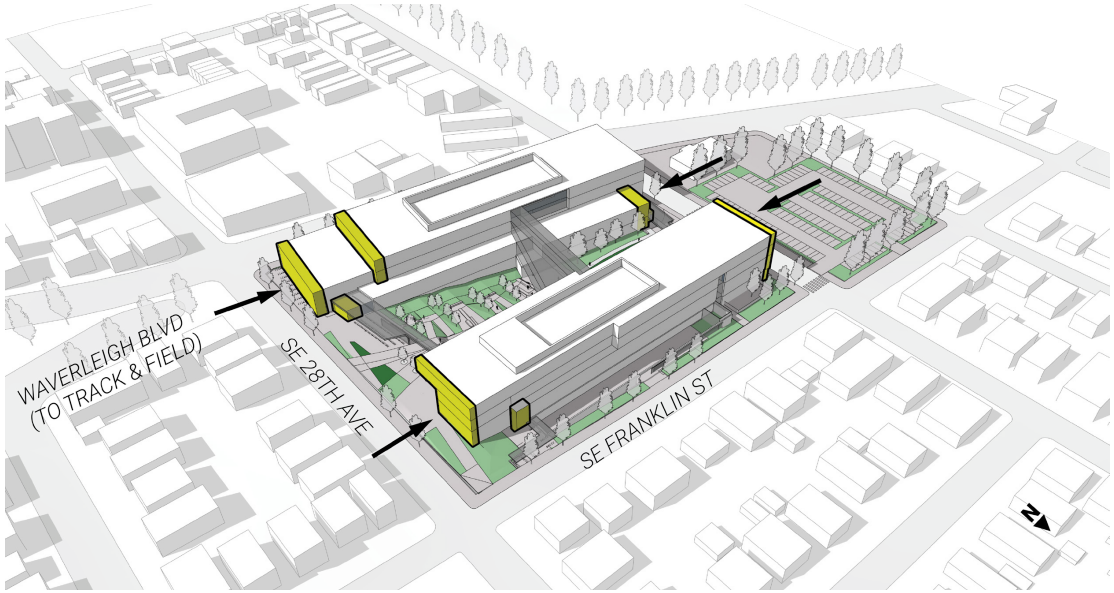

> Staff working with General Contractor to create a procurement plan that maximizes certified business participation and minimizes additional costs

©MAHLUM | Studio Petretti

Board Framework

Building Size

> Potential 23,000sf reduction
> Proposed school is approximately 295,000sf
> Meeting requirements of Ed spec and CHS specific needs.
> Basement area potentially reduced by approximately 37%
>>All-electric building systems require space larger than Ed Spec minimum

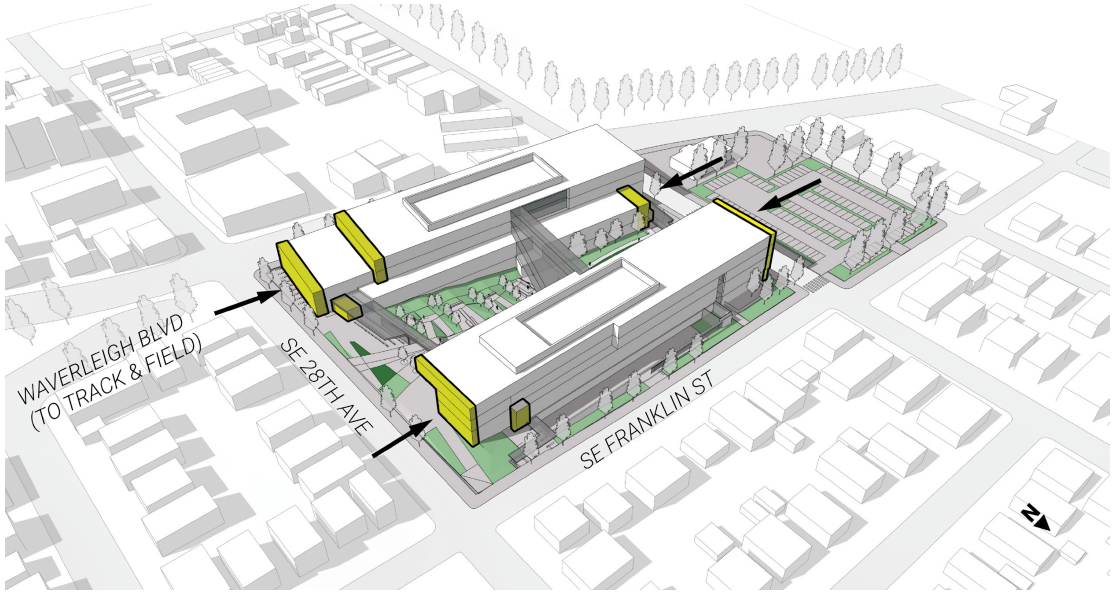

Design Team to share recommendations at upcoming DAG meeting

©MAHLUM | Studio Petretti

Potential Impacts to Board-approved comprehensive plan:

>3 general education classrooms
>1 science room
>Extended learning spaces
>Size of athletic spaces
>Size of performing arts spaces
>Loading dock
>Custodial / back-of-house / storage areas
>Size of health clinic and teen parent center
>Indoor track

Design Team to share recommendations at upcoming DAG meeting

©MAHLUM | Studio Petretti

Board Framework

Health Center

> The health center is included in the CHS project
> Multnomah County provided a Letter of Intent agreeing to continue operating the clinic at the modernized Cleveland facility and during the relocation to the Marshall campus during construction

Teen Parent Center

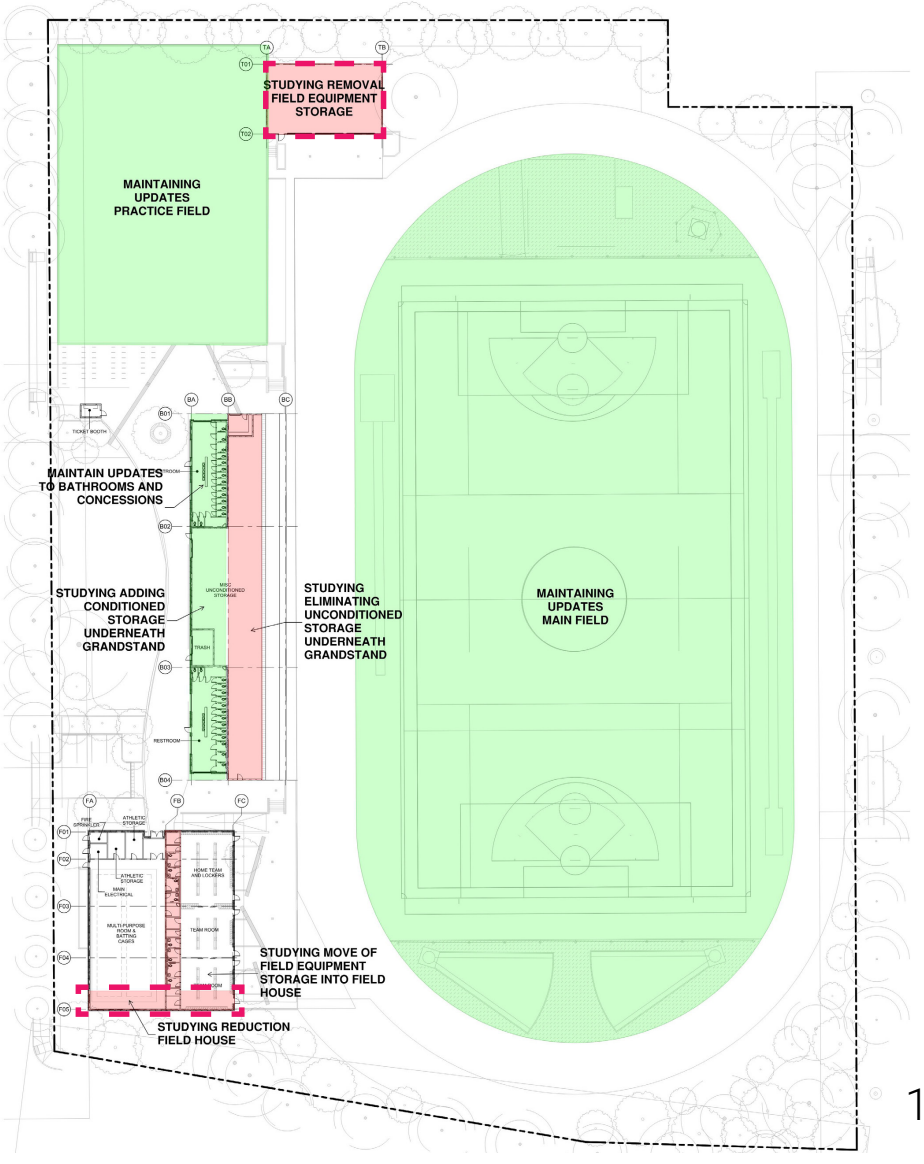

> PPS program staff is in the process of providing data for the individual school community needs for services
> The project team is reducing the size of the center to reduce costs while maintaining program requirements

©MAHLUM | Studio Petretti

Board Framework

Athletics Cleveland Stadium Site

> Size of Field House
> Number of team rooms from 3 to 2
> Removal of storage building; utilize grandstand structure instead

©MAHLUM | Studio Petretti

Board Framework

> PPS staff is exploring options other than LEED Gold Certification and will report on progress at the next board meeting

> Will maintain all-electric infrastructure and optimize building systems and structure related to embodied carbon, durability and cost

©MAHLUM | Studio Petretti

Board Framework
Additional Cost

> Raised loading dock
> Storage space down to Ed Spec minimums
> Simplified exterior materials
> Optimizing structural systems

©MAHLUM | Studio Petretti
