Explained braided funding, slots, grants, and funding sources. Community Needs Assessment.	Dana	30 min

	What does enrollment look like historically? Pre-covid enrollment was mostly full. Nationally, programs are struggling with enrollment. Income restrictions? Cost of living vs. Federal Income guidelines? Federal Head Start recently revised income parameters to approve families. Some classrooms seem a little cramped. All classrooms are capped at 18 students and 2.5 staff. Ratio of students to staff is 9:1. What roles do public universities and entities help with enrollment? The enrollment team visits libraries, community centers, schools, apartment complexes to find families. Our new enrollment team works year-round and works solely on enrollment. Gives Family Advocates more time to focus on families. Motion - Teresa Motion to accept Director's Report Second - Troy seconded the Motion Voting: Favor 10 / Opposed 0 / Abstain 0 Motion approved

Acción	¿Lugar de la próxima reunión? ¿King?	Presidente – Teresa/Alex	
Aplazar	Posiblemente se aborden los estatutos sobre el quórum. Este es el primer año que todos los programas de preescolar de las escuelas públicas están bajo el mismo paraguas. Tenían un programa piloto para el cuidado posterior a la escuela, pero no hubo suficiente interés y no era rentable, ya que necesitaban 3 empleados, pero solo tenían 5 niños en algún momento. Es una necesidad y preocupación anual para los padres, ya que el horario escolar regular no cubre las horas de trabajo.		
Próxima reunión el 9 de abril a las 17:00 horas Ubicación: Clarendon Early Learners, 9325 N Van Houten, Portland, OR 97203

Midyear Report

Organization & Program Name:	**Dana Stiles**
Reporting Period:	**July 1, 2024 – December 31, 2024**
Lead Contact for Report: **Questions (name and email)**	**Dana Stiles** **dstiles@pps.net**

Instructions

1. Enter the organization, program name, lead contact for the report and email address in the box above.

2. Enter responses in the text box that follows each question. The boxes will adjust in size as information is entered; everything you type will be visible in the report.

3. Limit total length of report to 3 pages (including required and optional questions).

4. Submit this report to your PCL grant manager by January 31, 2024. If you need an extension on this due date, request one from your grant manager.

1. Service Goals

In Section I.B of the grant agreement, service goals are outlined for each program component. Considering service data through December 31st, is the program on track to meet the service goals (number of participants to be served and amount of service to be offered) for each program component? If the program is not on track to meet annual goals, explain why that is the case.

Our program is working to meet the 2024-25 service goals. The average enrollment rate across all four classrooms is 83%. In our two Spanish Dual-Language classrooms, our current enrollment rate is 87% (31/36 students). In our two Neuroeducation classrooms, our current enrollment rate is 81% (29/36). The average program attendance rate is 83.3%. Family engagement (parent/child) is on track.

2. Implementation

Describe any implementation issues experienced during the first six months of the reporting period. What modifications (e.g. curriculum, service location, times, outreach, staffing model, staff training) have been made or are planned to be made to address these issues?

An implementation challenge this year has been the shift from site-based enrollment to central-enrollment. As with any system change, there has been growing pains; however, at this point in the school year we are quickly filling all classrooms. We have identified gaps within the new system and addressed those. Moving forward we will continue to assess the system prior to Spring enrollment for the next school year.

The program has retained 4 coaches to increase curricular implementation and staff training/coaching. We are implementing Tools of the Mind (TOTM) and launched Heggerty in all PreK classrooms this year, including Spanish Heggerty in our DLI classrooms. Finding sufficient time for staff training staff is a consistent challenge. We've been able to offer extended training sessions at Preservice and Winter Institute, and monthly curricula training on Early Release Wednesdays. We offered a specific Neuroeducation and Spanish DLI training at the institute.

3. Outcome Data Collection Progress

If you began collecting outcome data during the reporting period (e.g. pre-tests administered, class-based programs where surveys are administered at the end of the class), have you made any changes to your evaluation process and/or procedures during this reporting period?

YES X **NO** ☐ If "YES", please describe what was changed and why.

In the reporting period, 100% of children were screened for developmental needs using the ASQ-3 and ASQ-SE; if indicated additional information or support may be needed, students have been referred. All students enrolled by November 2024 were assessed using our progress monitoring tool, Desired Results Developmental Profile (DRDP). Fall DRDP data indicated students' baseline developmental skills and goals. Student progress data will be collected and analyzed following our winter (February) and spring (May) DRDP benchmarks.

Have you encountered any challenges with collecting outcome data that will impact year-end reporting?

YES ☐ **NO X** If "YES", provide an explanation.

4. Additional Information (OPTIONAL): Share any additional information about things that happened during the reporting period that impacted the program and/or organization (either positively or negatively) that you believe is important for the grant manager to be aware of.

5. Program Highlight (OPTIONAL): Is there anything about your program you would like PCL to highlight in our communications with community audiences (for example: something new, unique, exciting or specific story)?
