TOGETHER, WE RISE

WITH **EXCELLENCE.** WITH **PURPOSE.**

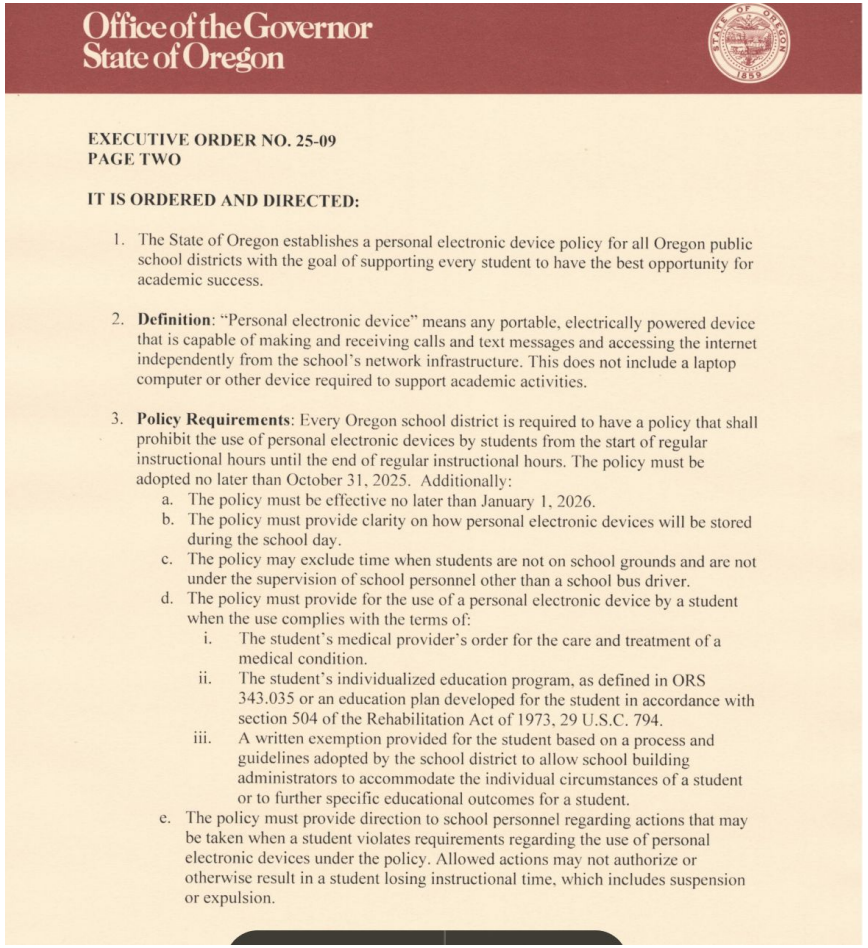

Personal Electronic Device Update

Purpose today

Update the School Board on changes to our Personal Electronic Device Policy after the Governor's Executive Order:

1) How personal electronic devices will be stored.
2) How school personnel will respond to violations of the policy.
3) How this policy will be communicated.

With room to answer any specific questions

Office of the Governor
State of Oregon

EXECUTIVE ORDER NO. 25-09
PAGE TWO

IT IS ORDERED AND DIRECTED:

1. The State of Oregon establishes a personal electronic device policy for all Oregon public school districts with the goal of supporting every student to have the best opportunity for academic success.

2. **Definition**: "Personal electronic device" means any portable, electrically powered device that is capable of making and receiving calls and text messages and accessing the internet independently from the school's network infrastructure. This does not include a laptop computer or other device required to support academic activities.

3. **Policy Requirements**: Every Oregon school district is required to have a policy that shall prohibit the use of personal electronic devices by students from the start of regular instructional hours until the end of regular instructional hours. The policy must be adopted no later than October 31, 2025. Additionally:
   a. The policy must be effective no later than January 1, 2026.
   b. The policy must provide clarity on how personal electronic devices will be stored during the school day.
   c. The policy may exclude time when students are not on school grounds and are not under the supervision of school personnel other than a school bus driver.
   d. The policy must provide for the use of a personal electronic device by a student when the use complies with the terms of:
      i. The student's medical provider's order for the care and treatment of a medical condition.
      ii. The student's individualized education program, as defined in ORS 343.035 or an education plan developed for the student in accordance with section 504 of the Rehabilitation Act of 1973, 29 U.S.C. 794.
      iii. A written exemption provided for the student based on a process and guidelines adopted by the school district to allow school building administrators to accommodate the individual circumstances of a student or to further specific educational outcomes for a student.
   e. The policy must provide direction to school personnel regarding actions that may be taken when a student violates requirements regarding the use of personal electronic devices under the policy. Allowed actions may not authorize or otherwise result in a student losing instructional time, which includes suspension or expulsion.

Student Use of Personal Electronic Devices in Schools

We are committed to supporting student mental health and wellbeing and to creating environments where students feel safe, welcome, and excited to learn. Peer and student-to- teacher interactions are fundamental to learning, and we must create the conditions that allow students to be engaged, focused, and challenged so they can reach their full potential. We are committed to understanding quality research on the use and impact of Personal Electronic Devices on the educational environment and adopting best practices as they evolve.

I. **Definitions**

"Personal Electronic Device" is a device that is capable of electronically communicating, sending, receiving, storing, recording, reproducing and/or displaying information, depictions, and/or data.

II. **General Guidelines**

A. Personal Electronic Devices must be "off and away" throughout the school day so that the device cannot disrupt students or the learning environment unless otherwise permitted under this policy or the related Administrative Directive.

B. **Additional Restrictions May Be Adopted by a School:** Nothing in this policy prevents a building administrator from adopting additional restrictions on the use of Personal Electronic Devices during school hours.

C. **Discipline:** Students who do not comply with this policy or the Personal Electronic Device requirements of their school may be subject to discipline as outlined in the District's Student Rights and Responsibility Handbook, including having their Personal Electronic Devices confiscated.

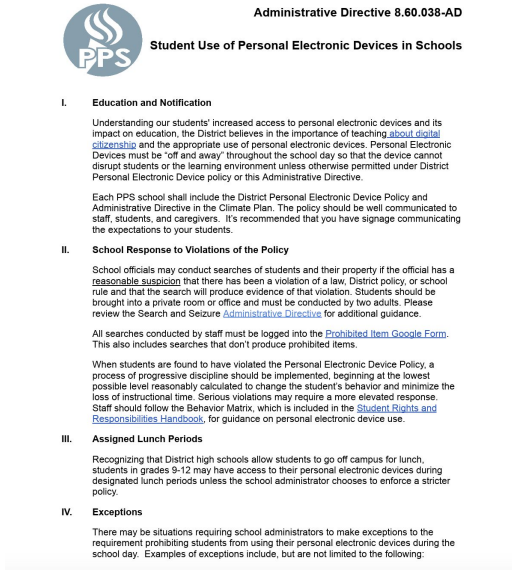

D. **Exceptions:** Categories of exceptions to this policy, shall include, but not be limited to:

i. complying with a student's Individual Education Plan (IEP), 504 Plan, or other requirement to access the educational programming or communication at school;
ii. supporting specific academic activities as determined by a building administrator;
iii. application of the policy in the District's alternative educational programs; and
iv. others as defined by the Superintendent.

E. **No Bullying or Harassment:**

i. Students may not take videos or photos during school activities or otherwise use their Personal Electronic Devices to harass or bully another individual or otherwise violate PPS's Student Anti-harassment and Teen Dating Violence Policy, PPS's student handbook, or other policy.

Personal Electronic Device Administrative Directive

Administrative Directive 8.60.038-AD

Student Use of Personal Electronic Devices in Schools

I. **Education and Notification**

Understanding our students' increased access to personal electronic devices and its impact on education, the District believes in the importance of teaching about digital citizenship and the appropriate use of personal electronic devices. Personal Electronic Devices must be "off and away" throughout the school day so that the device cannot disrupt students or the learning environment unless otherwise permitted under District Personal Electronic Device policy or this Administrative Directive.

Each PPS school shall include the District Personal Electronic Device Policy and Administrative Directive in the Climate Plan. The policy should be well communicated to staff, students, and caregivers. It's recommended that you have signage communicating the expectations to your students.

II. **School Response to Violations of the Policy**

School officials may conduct searches of students and their property if the official has a reasonable suspicion that there has been a violation of a law, District policy, or school rule and that the search will produce evidence of that violation. Students should be brought into a private room or office and must be conducted by two adults. Please review the Search and Seizure Administrative Directive for additional guidance.

All searches conducted by staff must be logged into the Prohibited Item Google Form. This also includes searches that don't produce prohibited items.

When students are found to have violated the Personal Electronic Device Policy, a process of progressive discipline should be implemented, beginning at the lowest possible level reasonably calculated to change the student's behavior and minimize the loss of instructional time. Serious violations may require a more elevated response. Staff should follow the Behavior Matrix, which is included in the Student Rights and Responsibilities Handbook, for guidance on personal electronic device use.

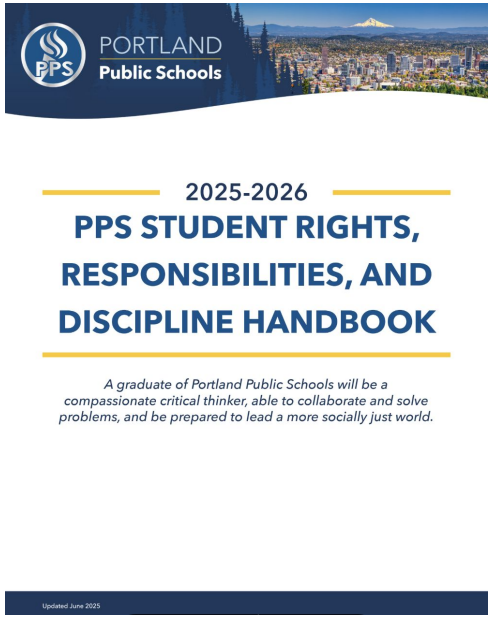

III. **Assigned Lunch Periods**

Recognizing that District high schools allow students to go off campus for lunch, students in grades 9-12 may have access to their personal electronic devices during designated lunch periods unless the school administrator chooses to enforce a stricter policy.

IV. **Exceptions**

There may be situations requiring school administrators to make exceptions to the requirement prohibiting students from using their personal electronic devices during the school day. Examples of exceptions include, but are not limited to the following:

School's Mission Statement	School's Vision Statement	School's 3-5 Core Values

What Is School Climate?

School Climate Overview

School Climate encompasses culturally relevant Positive Behavioral Interventions and Supports (PBIS), restorative practices and schoolwide transformative social-emotional learning opportunities for all students. Racial equity and social justice are woven into all aspects of school climate to ensure that all students experience a sense of belonging and have a positive school experience.

Multi-Tiered System of Support

School climate is an essential component of the Multi-Tiered System of Support (MTSS) framework. MTSS is a proactive, data-driven practice used at Portland Public Schools to support all students. It uses evidence-based instruction, intervention and assessment practices to ensure that every student receives the appropriate level of support based on their level of need. These tiered academic and behavioral interventions help eliminate barriers to learning and enable every student to successfully reach their full potential.

Schoolwide Values and Common Area Expectations

Our School's Core Values are

1. **Respectful**
2. **Responsible**
3. **Kind**

Our Core Values were created with student, staff, caregiver & community input (Keep or edit based on your school). These values are posted throughout the school in order to make them visible to students, staff and caregivers. The intention is to share a consistent message about what we value as a school
