Field Trips, Foreign Travel, and Other Off-Campus Activities

Field trips and experiences outside of the classroom provide unique opportunities and enrichment for students. The District shall strive to make these experiences equitably accessible and inclusive for all students. The District is responsible for overseeing the educational value of field trips and for the safety and welfare of all students involved.

I. Field Trip Approval Process

A. The District shall determine the appropriate approval process in the subsequent Administrative Directive and/or in the appropriate Risk Management procedures.

B. Field trip and risk management approval procedures should be developed with consultation from school administrators. School administrators may also request exceptions or alternative procedures in order to account for special or unique circumstances.

C. Field trips and adult supervision must be in accordance with Board Policy 5.10.064-P Professional Conduct between Adults and Students.

II. District Sponsored Activities, Non-District Sponsored Activities, and Travel Study

A. The Administrative Directive may authorize separate requirements for Non-District Sponsored Activities and Travel Study Programs.

B. The Board of Education may request an annual report of Field Trip activities.
