B. The Board of Directors for Portland Public Schools serves as the Governing Board for PPS Head Start.

1. PPS Head Start 2023 – 2025 OPK Amended Budget Workbook

PPS Head Start is required to submit a Site and Service Workbook annually as part of its Department of Early Learning and Care (DELC), Oregon Prenatal – Kindergarten (OPK) state grant. This data assists the DELC with report submission and facilitates any grant management systems claims PPS Head Start may have. PPS Head Start Parent Policy Council approved the OPK Amended Budget Workbook as of August 2025. Board approval is required. A Board Letter of Approval and Resolution are requested.

2. PPS Head Start Application – One-Time Supplemental Funds for Nutrition and Healthy Eating for Children and Families

The Office of Head Start released One-time Supplemental Funds for Nutrition and Healthy Eating for Head Start Children and Families. This grant is only available to current Head Start grantees and is one-time funding to expand and/or nutrition services. Our grant application includes funding requests to meet five goals:

1. Expand long-term access to fresh, healthy, and local food with seasonally fresh snacks.
2. Improve the safety and quality of food preparation through food safe storage.
3. Create community gardens at 4 sites through a partnership with Growing Gardens.

4. Establish staff and family-centered nutrition education programs through partnerships with Greater NW Community Health Collective (GNWCHC) and Growing Gardens.
5. Develop programming to integrate physical activity into children's daily routines by renewing our partnership with Portland Soccer Shots.

PPS Head Start Parent Policy Council approved the grant application as of August 2025. Board approval is required. A Board Letter of Approval and Resolution are requested.

CONNECTION TO BOARD GOALS

The goal of PPS Head Start is to prepare the city's diverse and resilient young children for successful transitions to kindergarten and beyond by leveraging each child's strengths, building their social competence, and developing school readiness skills.

In June 2022, the PPS School Board established a new set of goals. "It remains the core mission and responsibility of our school system to ensure that every student has opportunities to thrive and experience success. We are dedicated to the continuous improvements necessary to drive the system shifts that will better support our students, educators, and leaders and result in improved student performance." The Board adopted the following four priorities for the 2022-2027 time period to move the school district toward the above aspirations:

- Improve Third Grade Reading achievement
- Improve Fifth Grade Mathematics achievement
- Improve Eighth Grade Readiness
- Improve High School Graduation rates

The above items support the district's and School Board's vision and priorities.
