- Involving stakeholders in decision-making leads to better outcomes.
- Adult behavior is a powerful teacher for young people.
- Assuming individual and collective responsibility for the choices we make is critical to creating the future we desire.

Objectives

By 2005:

- 100% of our students will demonstrate significant growth every year toward achieving rigorous system-wide academic expectations.
- 100% of our students will continually set ambitious learning goals, persist in pursuing those goals, and demonstrate evidence of progress.
- 100% of our students will willingly and regularly contribute to the community.

Strategies

- We will create a system-wide **culture** that reflects an ethic of service, excellence and respect.
- We will create **partnerships** with stakeholders to achieve our strategic objectives and mission. (Stakeholders include: parents, students, all staff, business, community based organizations, local and state government and the voting public.)
- We will actively select, support and retain **employees** who contribute to accomplishing the mission and strategic objectives, and who reflect the diversity of our students.
- We will eliminate the **achievement disparity** of low income children, children of color, and English Language Learners in relation to District Standards.
- We will, in partnership with stakeholders, monitor, propose, influence, and negotiate **legislation** and **regulations** to support implementation of strategic objectives.
- We will provide the means and **flexibility** necessary for each school and department to develop and implement a plan that meets the strategic objectives and holds each accountable for its contribution in meeting those objectives.
- We will adopt system-wide **standards** for the students' achievement of the strategic objectives and the means to assess them at each school.

Delimiters

We will not initiate any new program or service unless:

- It is consistent with and contributes to our mission, and
- It is accompanied by a plan to assess its effectiveness relative to achieving our strategic objectives and mission.

Update on Board Consideration of Local Option Levy and General Obligation Bond

February 24, 2005

Portland Public Schools budget outlook for 2005-07 includes further shortfalls, reductions

Governor's budget and local option expiration reduce revenues As the School Board and Superintendent begin public discussions about the budget outlook for Portland Public Schools, once more, the future includes budget cuts. Under projections provided to the Board in a public work session on February 24, the school district faces a General Fund budget shortfall of up to $51 million in 2005-06, if the local option property tax levy is not renewed.

The local option property tax levy, worth $33.5 million, expires at the end of this school year. The School Board is weighing the option of putting the local option on the May ballot. However, under the "double majority" constitutional amendment Oregon voters passed, to win the levy would require not only majority support, but also a voter turnout of more than 50 percent. Given the historic voter registration levels from the November presidential race, the turnout requirement is a significant obstacle.

The Governor's recommended budget – which statewide falls far short of maintaining K-12 education – contributes $17.5 million to the Portland Public Schools shortfall next year, bringing the projected shortfall to $51 million. The following year, the temporary local income tax expires, and the shortfall could grow to a total of $98 million.

Superintendent to focus on student achievement despite budget shortfalls On March 14, Superintendent Phillips will make a budget proposal for next year that outlines her plan to manage the Portland Public Schools budget through those shortfalls. (Even if the local option levy were on the May ballot, the budget proposal could not count on that revenue.) First, PPS will save $7.9 million in each of the next two years by buying down PERS rates, under the PERS bond refinancing the district carried out in 2004. Second, the district will push for the Legislature to increase state support over the Governor's recommended level. An additional $200 million statewide would bring PPS about $7.6 million a year.

Finally, the Superintendent plans to propose $35.4 million in budget reductions. This will be a real challenge, but she promises to focus every dollar possible on PPS's core educational mission. The district will continue to look for ways to work more efficiently and recoup savings, and will weigh programs based on their effectiveness at reaching the critical educational goals: to raise the bar for all and to eliminate the achievement gap. These will be difficult cuts, but the Superintendent will try to make them in ways that preserve the best education possible for students.

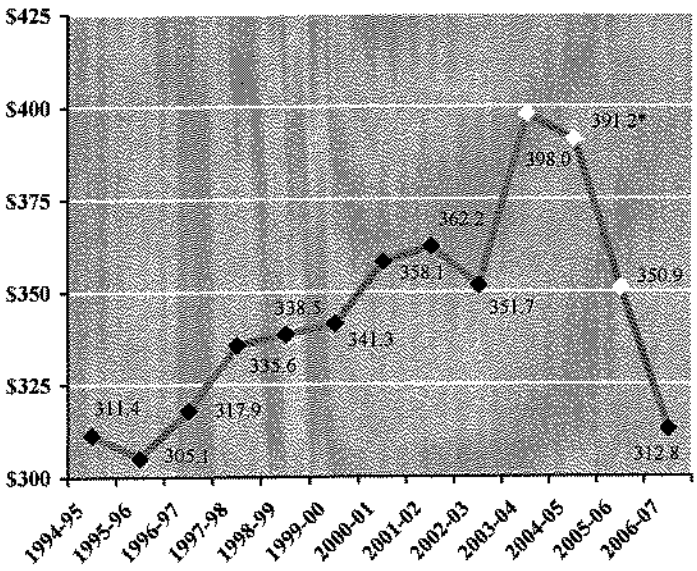

The superintendent does not plan to balance the 05-06 budget with one-time measures, such as shortening the school year and spending down reserves. That preserves those options for the following year, when the local income tax expires and the projected shortfall increases by another $47 million.

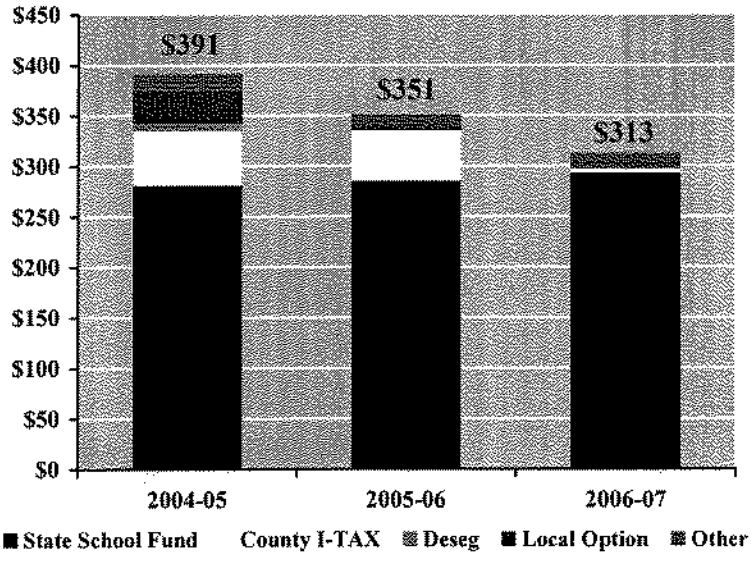

Effective education and increasing efficiency build base for long-term solution PPS has already weathered many lean years, and has taken action to cut costs in many ways already, such as containing district health care spending, bringing more special education services in-house, refinancing PERS, cutting facilities costs, outsourcing custodial services, reducing central administrative staff. These measures are saving tens of millions of dollars each year.

Together, the school district and the Portland schools community must work through another year or two of challenge, always working to achieve the ultimate goal: an excellent system of school supported by a stable, strong and predictable long-term funding source.

Students should have the opportunity to read, write and think about things that matter, become expert in an area of interest, and demonstrate a mastery of important skills."

Purchases, Bids, Contracts

The Superintendent RECOMMENDS adoption of the following item:

Number 3218

Contract Approval
Air Conditioning Installation at Wilcox Site

3218 WHEREAS, The Board of Education for School District No. 1J, Multnomah County, Oregon has designated itself as the Local Public Contract Review Board in accordance with ORS 279.055; and

WHEREAS, The Board previously approved a Capital Improvement Program budget that included the installation of a new air conditioning system at the Wilcox Site; and

WHEREAS, In accordance with District Procurement Rules, competitive offers were solicited from pre-qualified contractors, with American Heating being the lowest bidder at $181,430. All offers were above the engineer's estimate; and

WHEREAS, State and local bidding rules allow public agencies to negotiate with the low bidder when all offers exceed the engineer's estimate. Through the use of value engineering the Facilities Director believes that over $10,000 can be saved; and

WHEREAS, The Procurement Director believes the use of an informal bid process has resulted in a favorable offer to the District, and that proceeding with award to the low bidder would be beneficial. It is further believed that competition was not harmed since a competitive solicitation process was used, and that this action will result in cost savings to the District through the use of value engineering; now therefore be it

RESOLVED, The Procurement Director be authorized to utilize an informal bid process in lieu of formal bidding, and the Deputy Clerk be authorized to execute a contract with American Heating. The contract shall be in a form approved by the General Counsel in an amount not to exceed $170,000 with the work being performed under the direction of Facilities and Asset Management (5593), and shall be funded by the 1995 FCIP Bond.

3225 RESOLVED, That the following Board Policy 5.60.010-P Administrative Employees' Terms of Employment is adopted:

I. Definitions

(1) Superintendent; Licensed Administrators; Non-Licensed Administrators

(a) Superintendent – Appointed by the Board and holds a valid, permanent or temporary Superintendents' license from the Oregon Teacher Standards and Practices Commission (TSPC.)

(b) Licensed Administrators – employees who have met the standards and administrative licensing requirements of the TSPC, hold a current administrator's license with TSPC, and are employed in a District position that requires TSPC licensing.

(c) Non-licensed Administrators - Employees of the district that are not represented by a bargaining unit, do not meet the definition of "Licensed Administrator" or "Superintendent," and whose position is classified as Grade 20 or higher on the Administrator, Supervisor, and Professional/Technical (03) salary schedule. (B) Position title;

(C) Work year length; however, the work year length specified in the contract may be amended or shortened due to the fiscal status of the District. If the work year is shortened and/or a furlough is imposed upon employees, the administrator's yearly salary will be adjusted accordingly;

(D) Starting salary;

(E) An ending or optional renewal date;

(F) Terms for participation in "pay for performance program, if such a program is available and approved by the Board and Superintendent; and,

(c) Each administrator shall have a current employment contract on file in the district central office.

(d) Administrative contracts shall not contain provisions to expressly obligate the district to compensate an employee for work that is not performed. The employment contract may include a provision that would permit payment of severance pay of an equivalent of no more than 90 days of the base salary of the terminated employee.

(4) Benefits.

(a) The Superintendent shall develop a benefit plan that may include medical, dental, vision, long-term disability, life insurance, participation in annuity or other tax benefit program. The Board, prior to implementation, shall approve the benefit plan, and addendums to the plan, recommended by the Superintendent.

(5) Evaluation. The District shall endeavor to evaluate the performance of Administrators approximately annually, or at such other intervals as may be established by district policy or administrative directive.

(6) Salary Schedules.

(a) The Superintendent shall develop salary schedules for all Administrator positions. When developing the salary schedules, the Superintendent shall consider the need to attract high quality employees as well as to work within the budgetary limitations of the District. The Board shall approve the salary schedules.

(b) Administrator salary schedules shall be based on a market analysis of compensation and benefits received for like positions in the relevant public market.

(c) The development of the salary schedule for Licensed Administrators shall also include consultation with a representative group of licensed administrators.

(3) Subsequent dismissal, reduction in pay, or contract non-extension shall be according to provisions of Oregon Law.

V. Additional Terms of Employment – Non Licensed Administrators

(1) Vacation leave for non-licensed administrators shall be granted in accordance with policy 5.60.031-P.

VI. Recruitment/Moving Expenses – Licensed and Non-Licensed Candidates

(1) Administrators normally will be expected to pay their own expenses associated with traveling and relocating to accept employment with the District, such as the expense of traveling to attend job interviews, travel to look for new housing, expenses associated with the sale of an existing home or purchase of a new home and expenses associated with moving a household to the Portland area.

(2) In exceptional circumstances, the District may agree in advance to reimburse certain limited, reasonable expenses, such as the reasonable cost of travel and moving household goods, incurred by the Administrator in relocating to accept District employment. Such exceptional instances may involve a position for which it is difficult to find a qualified candidate after the District has undertaken reasonable recruitment efforts. This may occur, for instance, when the salary offered by the District is below market-rate and the District is not able to change the salary or a sufficient number of qualified candidates do not exist. Reimbursement for relocation expenses shall be the exception rather than the rule and shall be kept to a minimum amount necessary to meet the District's recruiting objectives.

(3) Any offer to reimburse travel for candidates or relocation expenses shall be approved in advance in writing by the superintendent before this benefit is offered to the candidate.

(4) The Superintendent shall develop an administrative directive specifying allowable travel or moving expenses for candidates and new administrative employees.
