All percentages are of October Enrollment, ethnicity percentages shown are students and incidents of that ethnicity divided by the count of students enrolled in October of that subgroup.

*Discipline counts and rates are suppressed where enrollment falls below 6 students. Percents based on a small number of students are not statistically sound and do NOT support comparison.

[1] For most of the schools and programs reported here, October enrollments are representative of the total number of students served throughout the school year, and thus a reasonable basis for calculating suspe rates. However, for Alliance HS (shown in PPS Alt), an alternative high school serving 16- to 21-year olds previously unsuccessful in traditional high school programs, the total number of students served during the many as 2 to 3 times greater than October enrollments. Consequently, suspension and expulsion rates reported for Alliance HS should be viewed with caution. Pioneer Programs (shown in PPS Special), similarly t throughout the school year, therefore October Enrollment is not a good representation of the total students served.

Major Discipline Referrals are out-of-school suspension (exclusion from school for at least one but not more than 10 days) and expulsion.

Counts of students referred are unduplicated within a school. For example if a student at one school received two out-of-school suspensions and one expulsion, that student will be counted once in the student ro
