Bond Accountability Committee (BAC) Charter Review and Discussion

Facilities Improvement and Oversight (FIO) Committee

Prepared and Presented by: Janise Hansen, CIA
Sr. Internal Performance Auditor
Office of Internal Performance Audit

PORTLAND Public Schools

January 20, 2026

Background

PPS's Bond Ballet Measure includes the following:

Oversight and Accountability

An independent group of community members will review quarterly reports and audits of how the bond dollars are being spent to provide accountability to the public until construction is completed

The independent group of community members is the Bond Accountability Committee

Audits of how the bond dollars are being spend are completed by contracted independent bond performance auditors

Bond Accountability Committee (BAC)

- Advisory committee to the PPS Board of Education (Board)
- Roles, responsibilities, and committee charges are detailed in the PPS Capital Construction Bond Accountability Charter (BAC Charter)
- The BAC Charter is approved by the Board
- Members of the BAC are appointed by the Board

The purpose of a charter is to formally establish and authorize an entity (like the BAC) by defining its fundamental purpose, structure, goals, scope, and governing principles, acting as a foundational agreement that grants rights, sets boundaries, aligns stakeholders, and provides a reference for operation and accountability

Recommendation from the Bond Performance Audit

"Revisit how best to use the BAC and strengthen the committee's role and involvement in oversight to enhance bond program and project delivery through BAC's technical feedback and insights on project details. This could include PPS providing the BAC with the same or similar bond data and staff analysis/memos currently provided to the SFIOC, as well as other documents such as contract templates, detailed schedules with critical path, or project priority criteria for review, in addition to involving the BAC with the annual bond performance audits."

Recommendation included in the Year 6 Bond Performance Audit issued June 13, 2025 – Recommendation #15

Bond performance audits are posted on the PPS website in the Board section, under the tab titled " PPS Audit Reports"

Additional Recommendations in the Year 6 Bond Performance Audit (related to the BAC) for consideration:

Year 6 – Recommendation #19: Work with the BAC to establish protocols for voting and formalizing any relevant recommended advice at its meetings that can be presented in BAC quarterly reports to the Board or provided in real -time by direct BAC-led presentations or OSM-led presentations to the Board.

Year 6 – Recommendation #20: Ensure written BAC minutes include attendance, summaries of discussions or presentations, action items, and recommendations made, as well as establish protocols to distribute meeting materials at least 12 days in advance of BAC quarterly meetings to align with distribution protocols for board meeting materials.

Consider adding: Requests for information or documentation from the BAC should be clearly documented in the meeting minutes

Year6 – Recommendation #21: Formalize the BAC recruiting and application process that is employed when a vacancy occurs or as soon as it is known a member is leaving to best retain full membership.

Suggestions for the BAC Charter update

Ask the BAC members for suggestions on what committee charges they think would be most appropriate

Present any BAC Charter updates to the BAC for consideration and approval before finalizing

Increase BAC membership to include members with experience related to technology and curriculum

Increase BAC meeting frequency (consider a minimum of six meetings per year)

Suggestions for the BAC Charter update

Revisit the following statement: The Committee may request additional documents and provide advice to PPS staff on topics agreed upon by the Committee and PPS Staff

Consider adding a mission statement to the charter

Revisit the following statement: Topics and scope for the annual performance audit work plan

Recent public testimony has requested the Board provide increased oversight around Bond seismic funds – this charge could be added to the charter

Suggestions for the BAC Charter update

Revisit the use of the term “may” in charter and consider adding some clarifying language

Add charge to the BAC to monitor and report to the Board on KPI's established in the comprehensive management plan (as referenced in the Procedeo contract)

Revisit the following statement: Topics and scope for the annual performance audit work plan

A staff report provided to the Policy Committee for the 10/20/2025 meeting states the BAC closely monitors increases in bond-funded contracts – consider formalizing that monitoring in the charter

Concluding Reminder

The advice provided by the BAC is for the PPS Board. The BAC Charter can be updated to reflect the monitoring, oversight and accountability measures you want to see; and the BAC reports can include the advice you need to inform your decision making around the Bonds.

If what you need from the BAC does not fall neatly within the charter, the Board could pass a resolution identifying specific advice requests, and/or monitoring, oversight and accountability responsibilities for the BAC.
