2026-27 Local Service Plan

February 2026

334.175 Core services

An education service district must provide regionalized core services to component school districts. These services aim to:

Help districts meet state and federal law requirements

Improve student learning

Enhance instruction quality

Provide equitable resource access for districts and their students

Maximize operational and fiscal efficiencies for districts

334.175 local service plan.

The local service plan, developed by the education service district (ESD) and component school districts, must meet specified goals and include services in at least the following areas:

Programs for Children with Special Needs

Special education and at-risk student services.

Technology Support

Infrastructure, data services, instructional technology services, and distance learning for districts and their technology plans.

School Improvement Services

Supporting districts with state/federal law compliance, reviewing standards, continuous improvement planning, addressing behavior/climate issues, and supporting career and technical education.

Administrative & Support Services

Consolidating business functions, acting as a liaison with the Department of Education, and registering privately taught children.

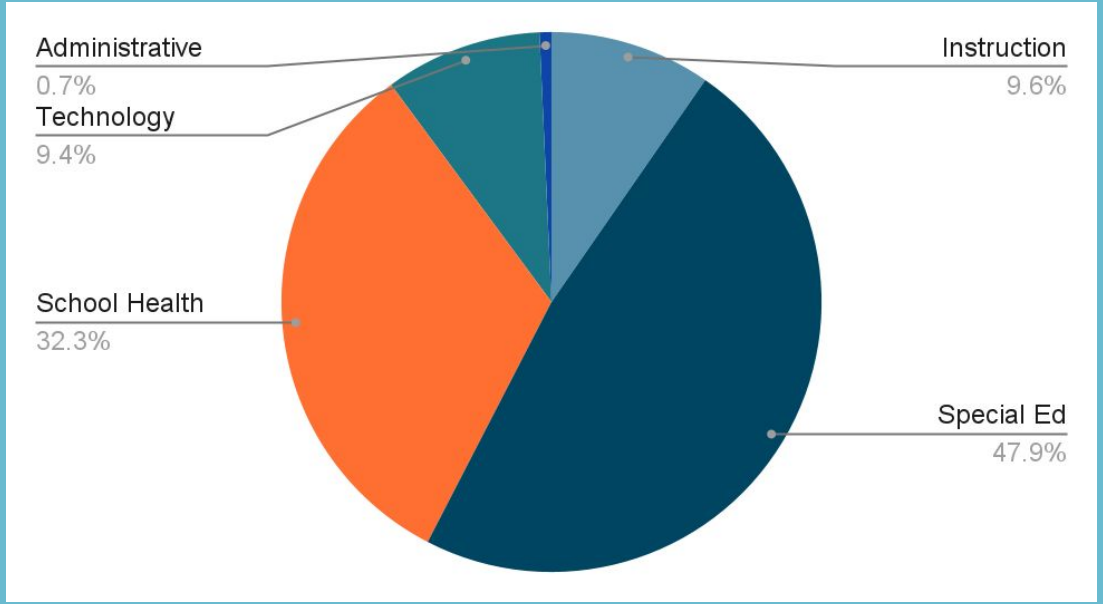

Other Mandated Services

Other services required by state or federal law.

The plan may also include additional services designed to meet regional needs.

2024-2025 Service Plan Programs

Service Area	2024-2025
Instructional Services	$ 5,391,765
