Data Dive Winter 2026: Graduation and Postsecondary Readiness Rates for the Class of 2025

Learning Target and Success Criteria

I am learning about the current rates of graduation, completion, and postsecondary readiness for the class of 2025.
I can articulate the graduation, completion, and postsecondary rates as well as the targeted action steps PPS staff are taking in response to these data.

Graduation and Completion Rates

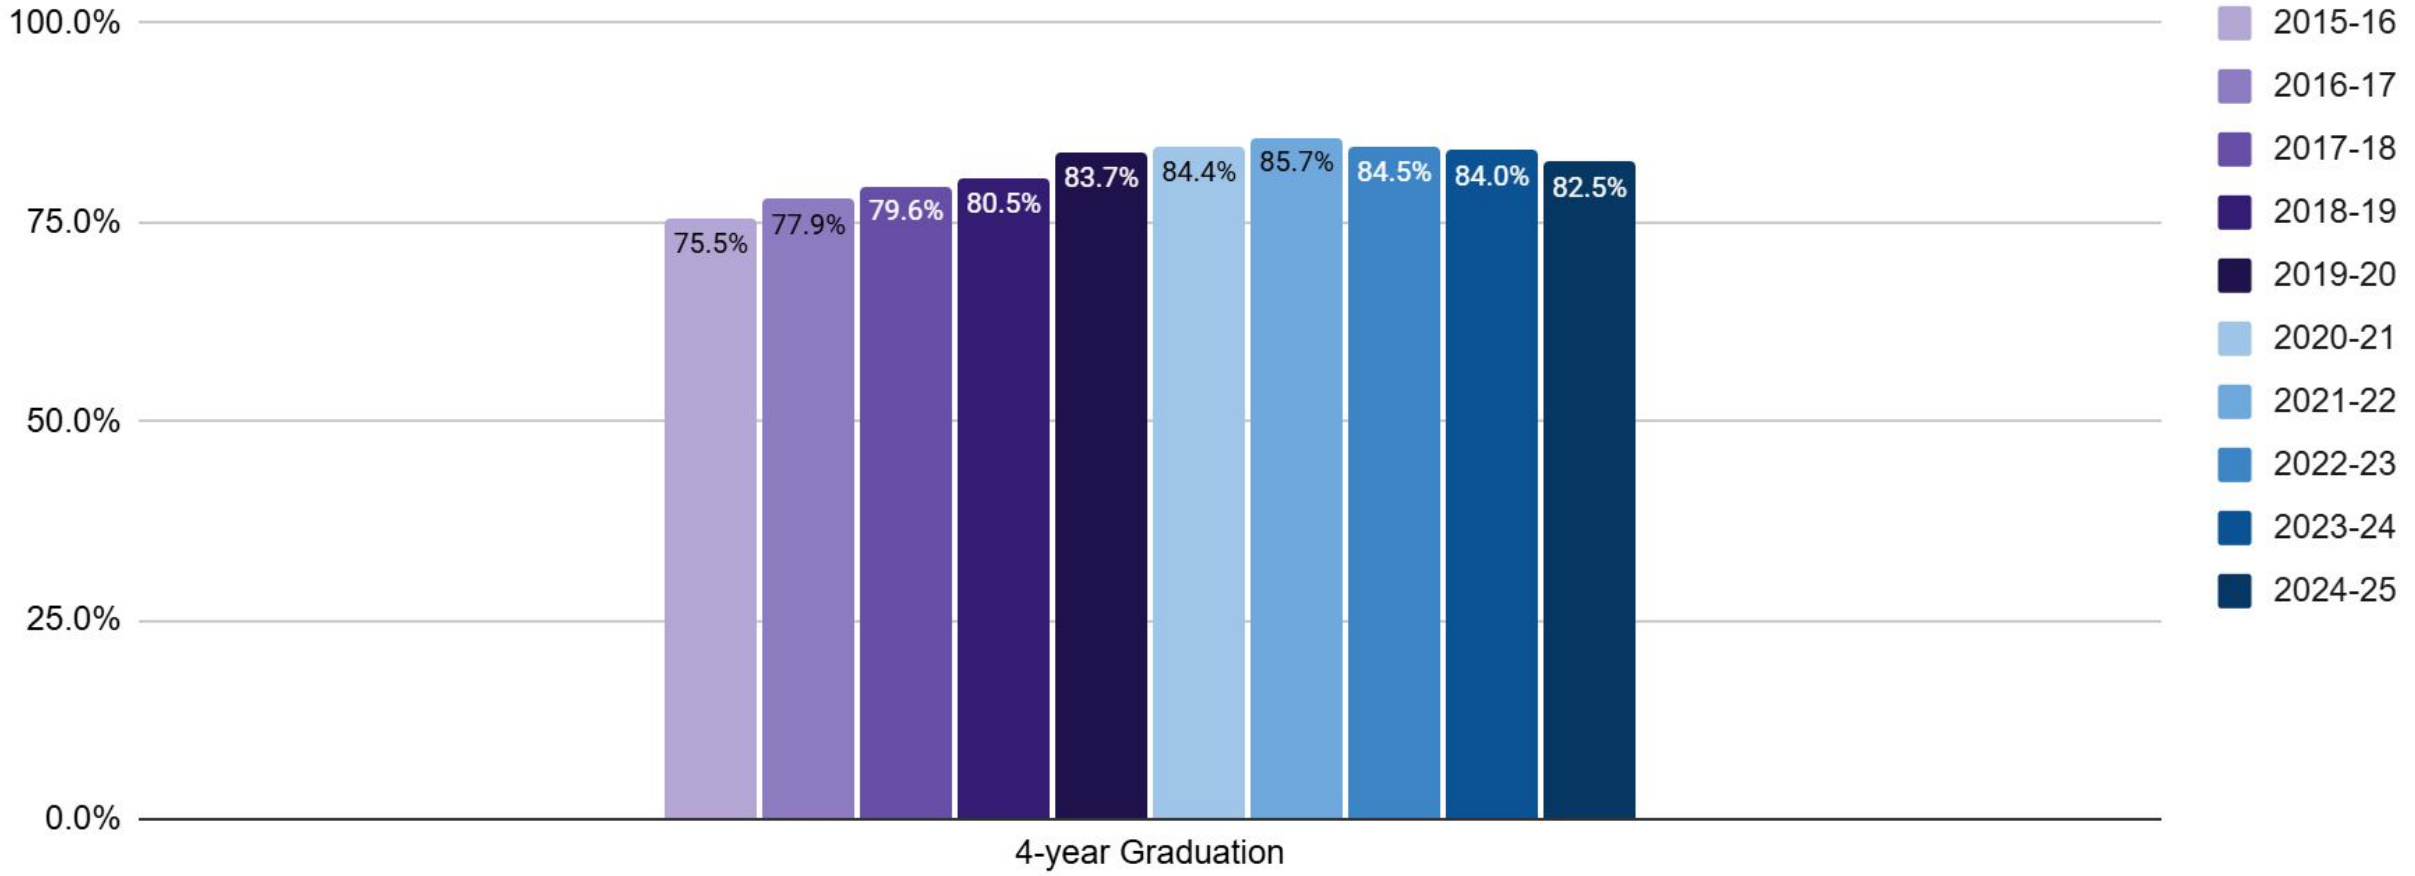

4 Year Cohort Graduation Rate

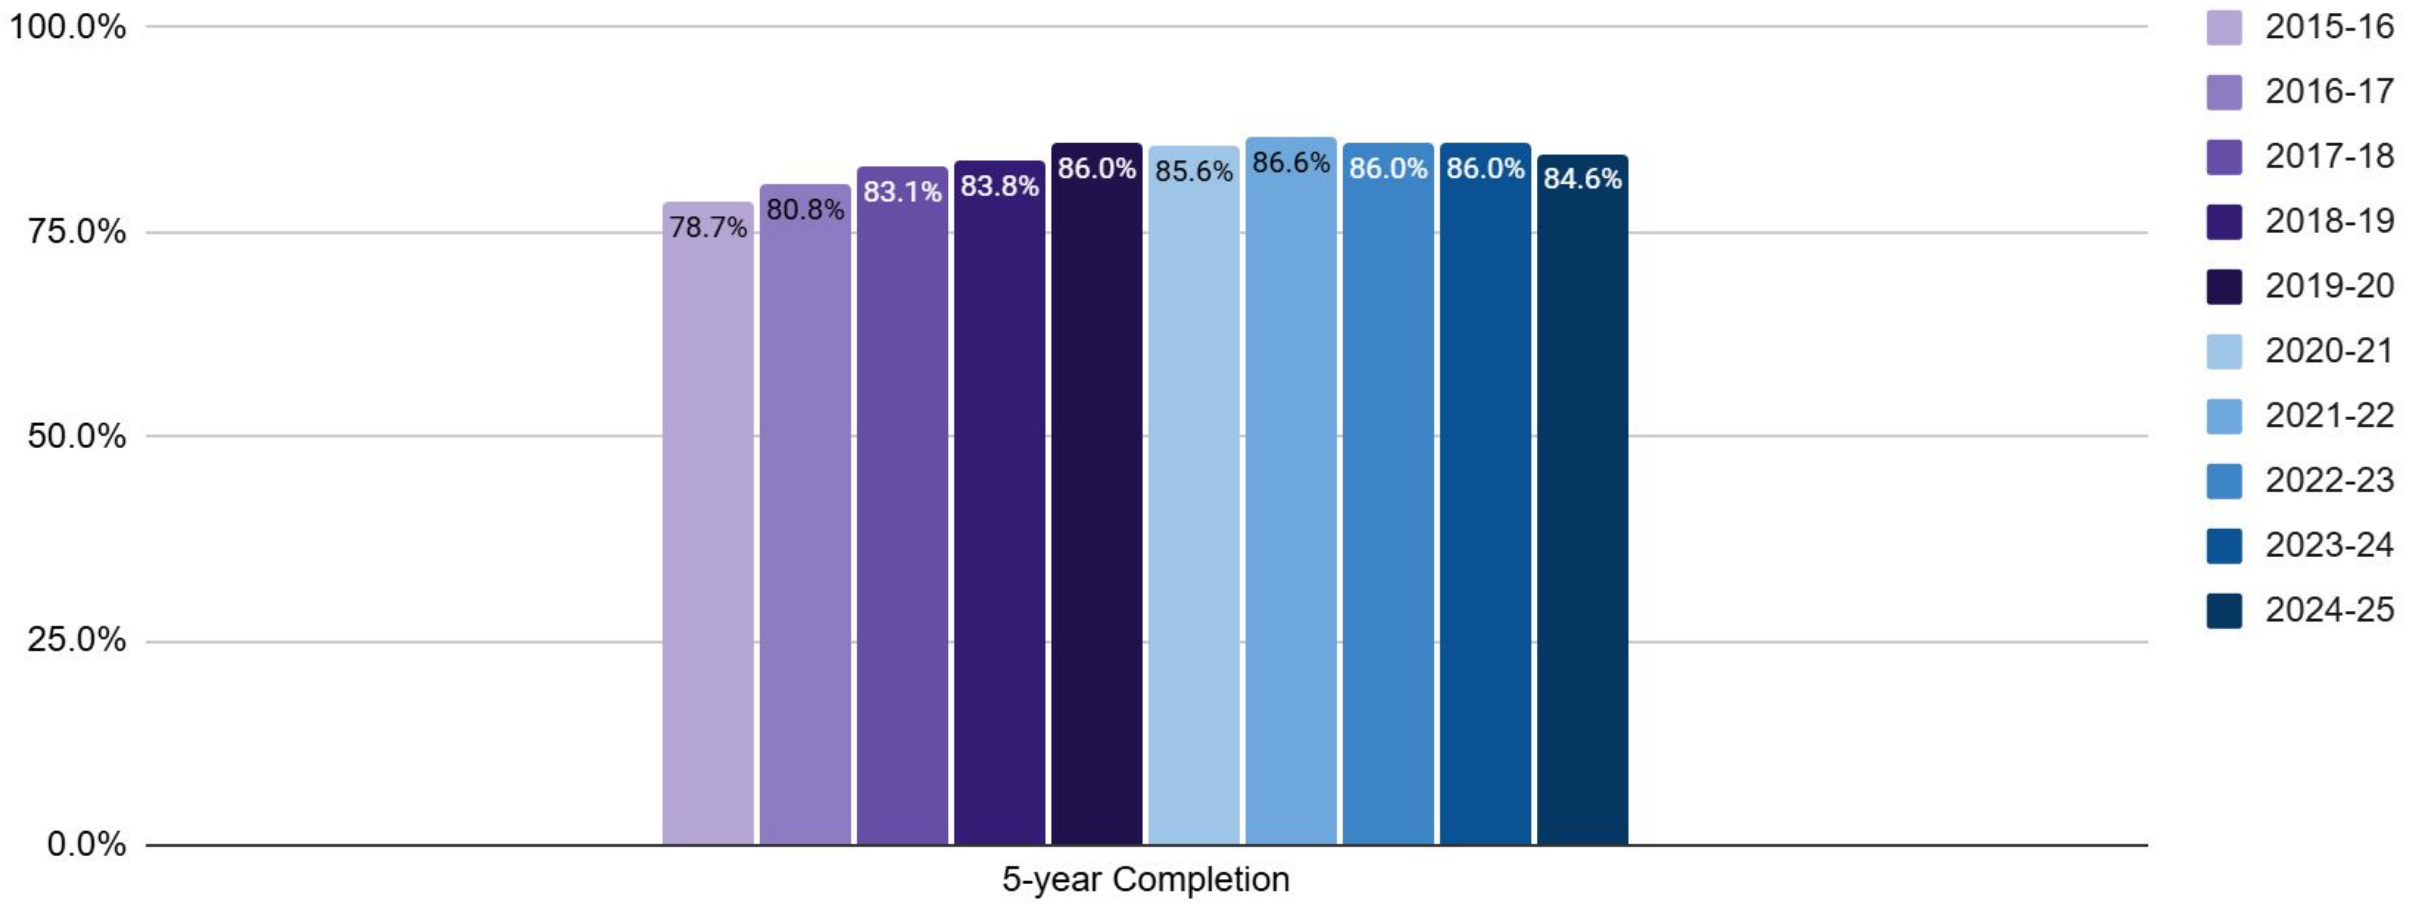

A **cohort** is defined as a group of **students who entered into 9th grade during the same year**.

$$\frac{\text{Number of Students Who Graduated Within 4 Years}}{\text{Initial Cohort + Transfers In - Transfers Out/Deceased}}$$

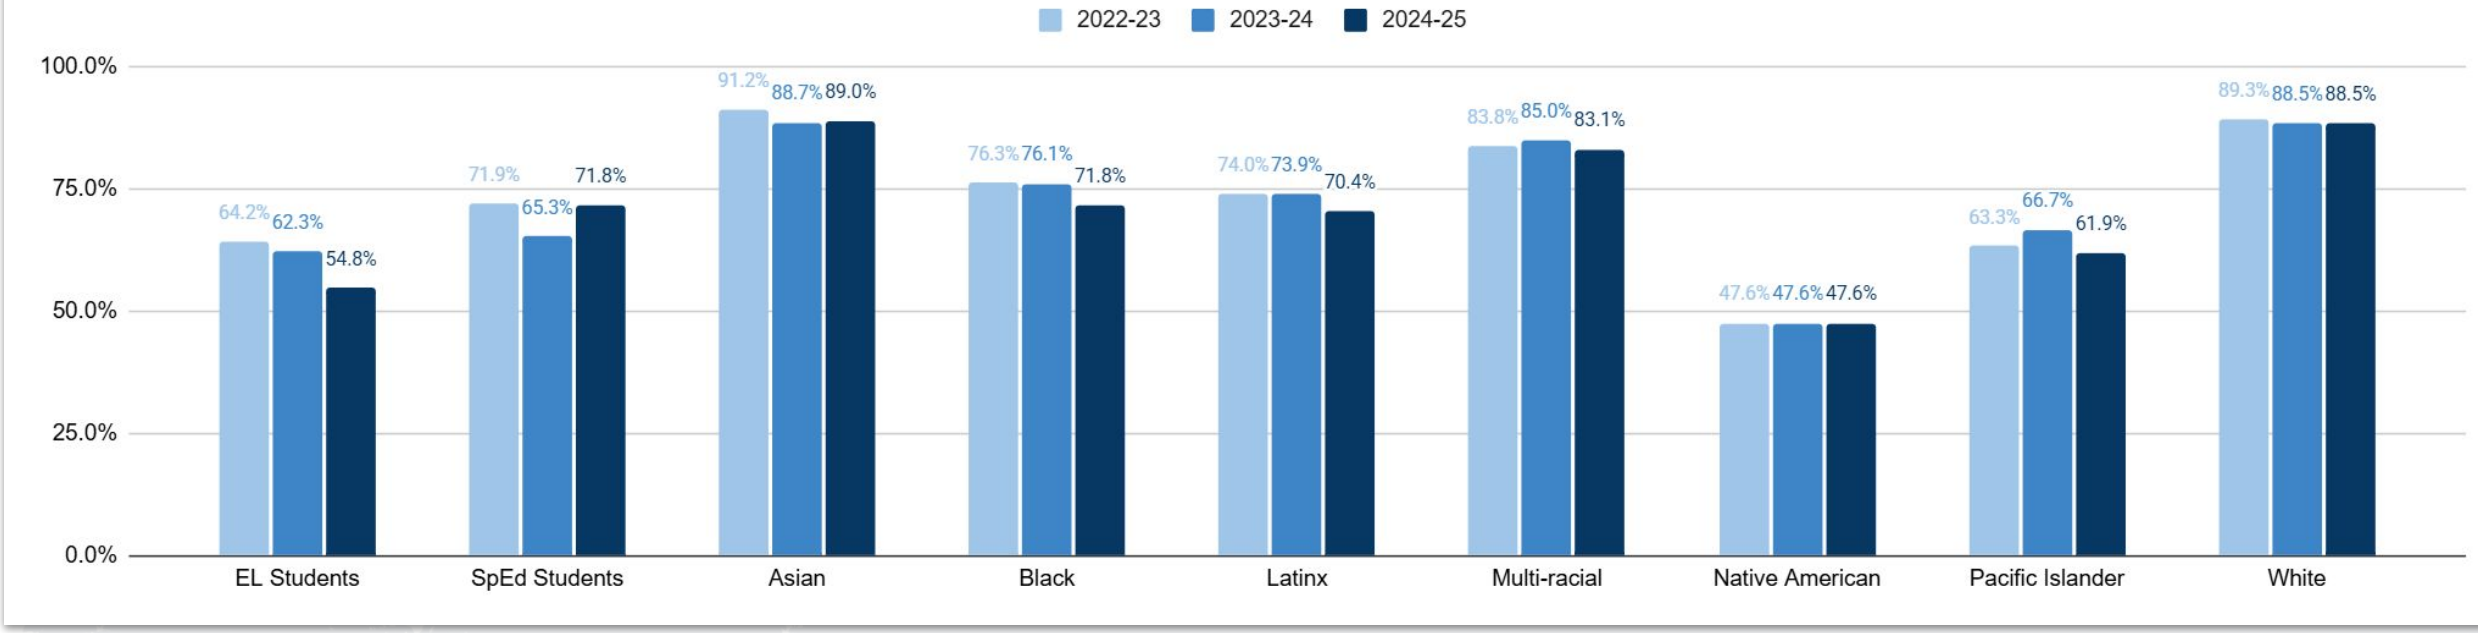

4-Year Graduation Rates, 10-Year Trend

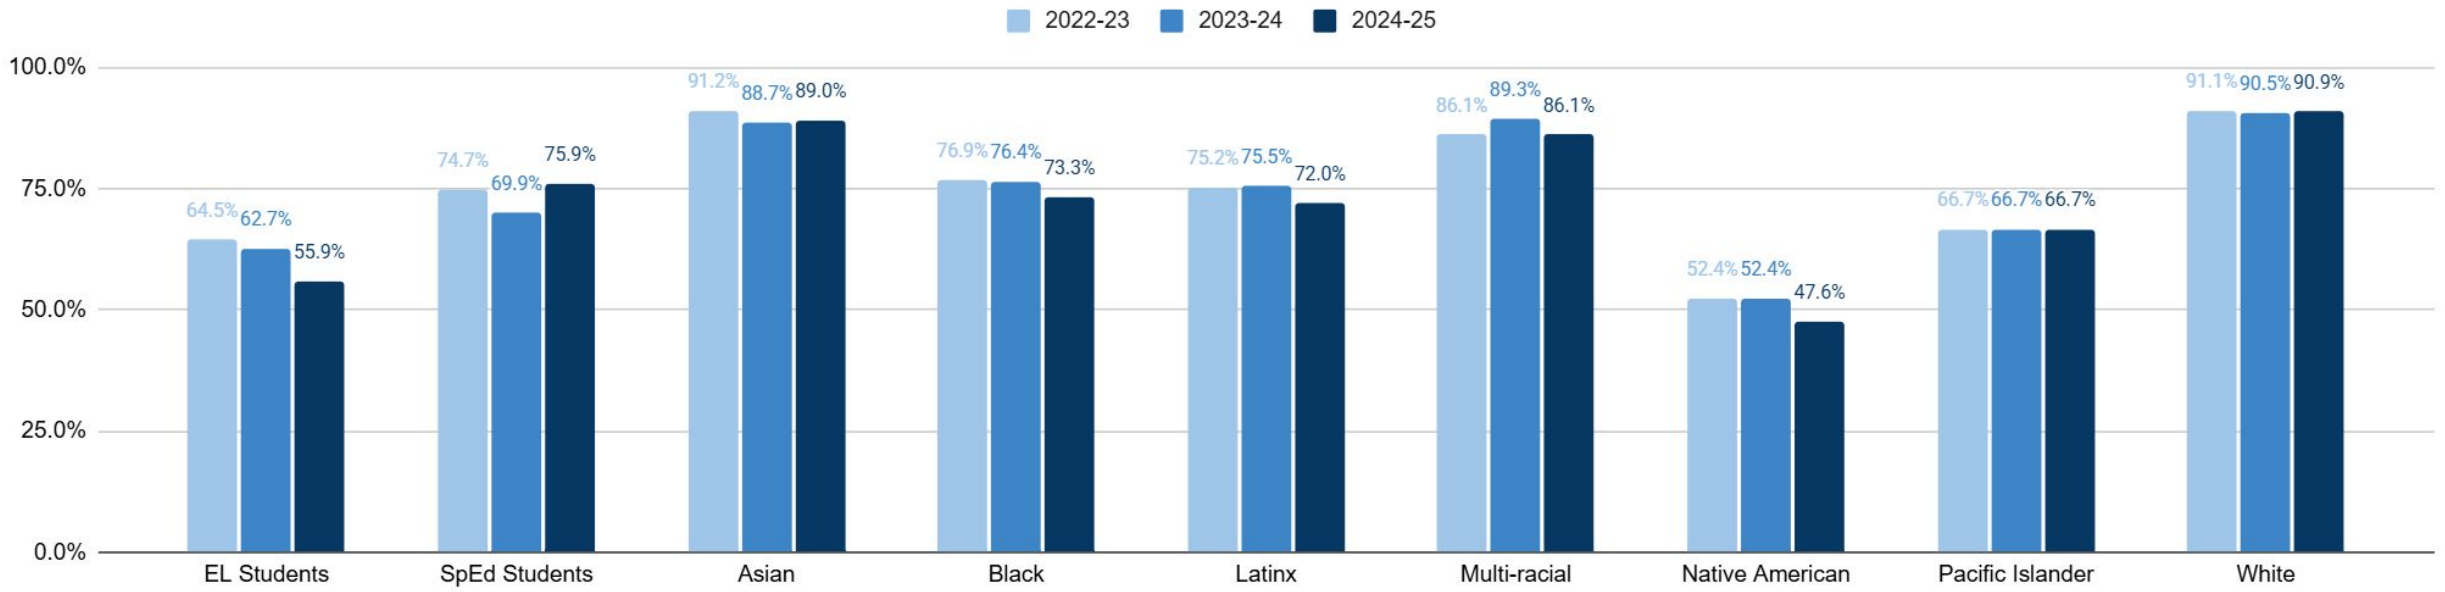

5-Year Completion Rates, 10-Year Trend

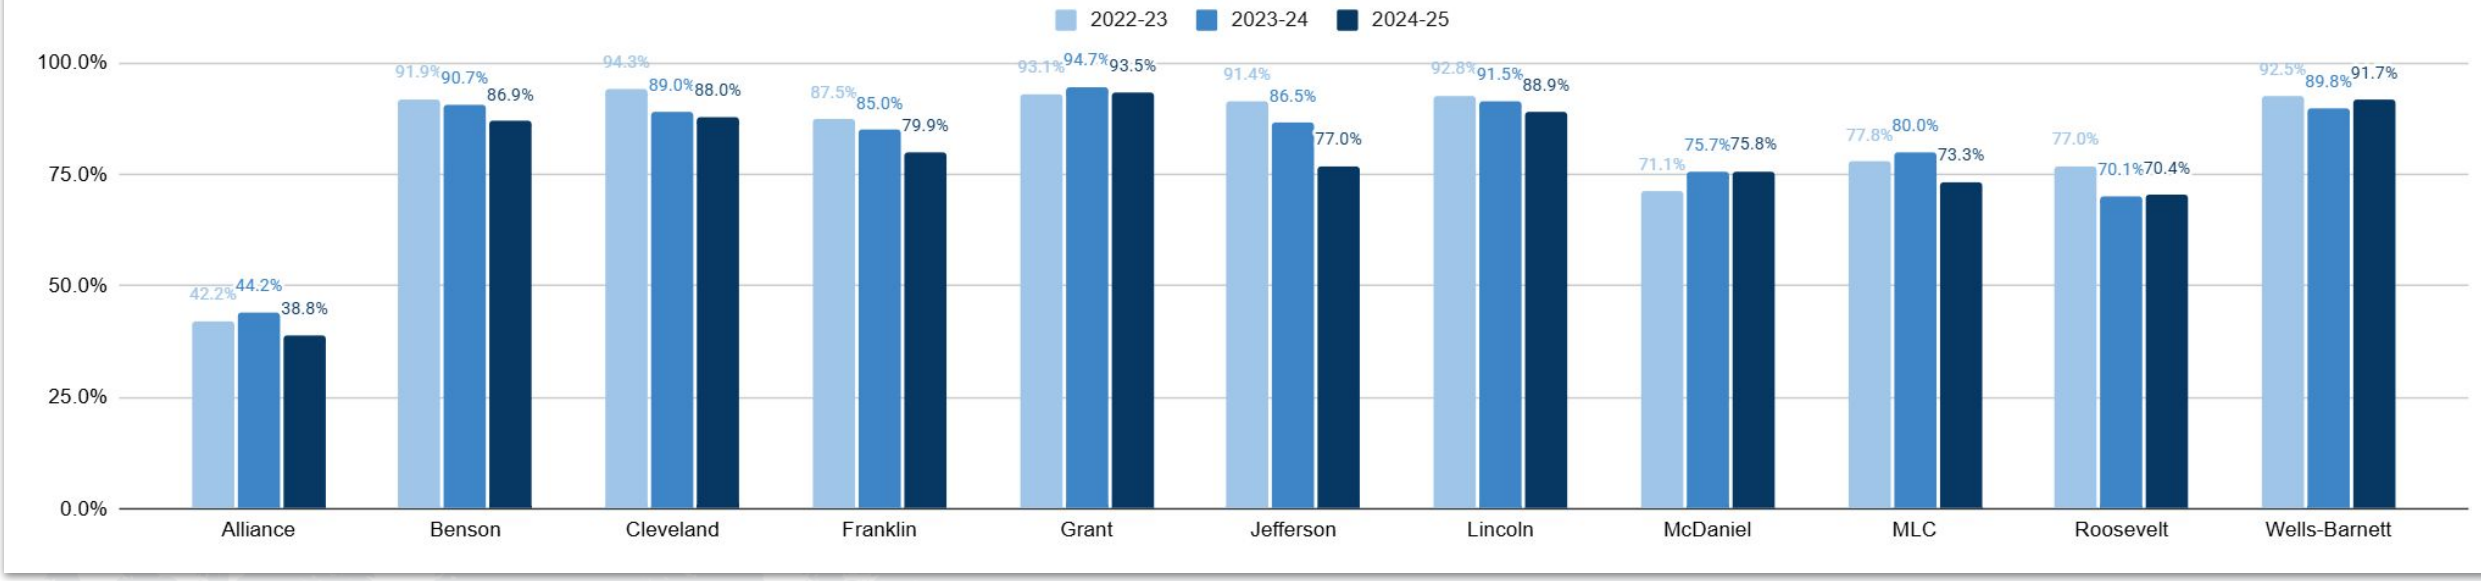

4-Year Graduation Rates by Student Group, 3 Years

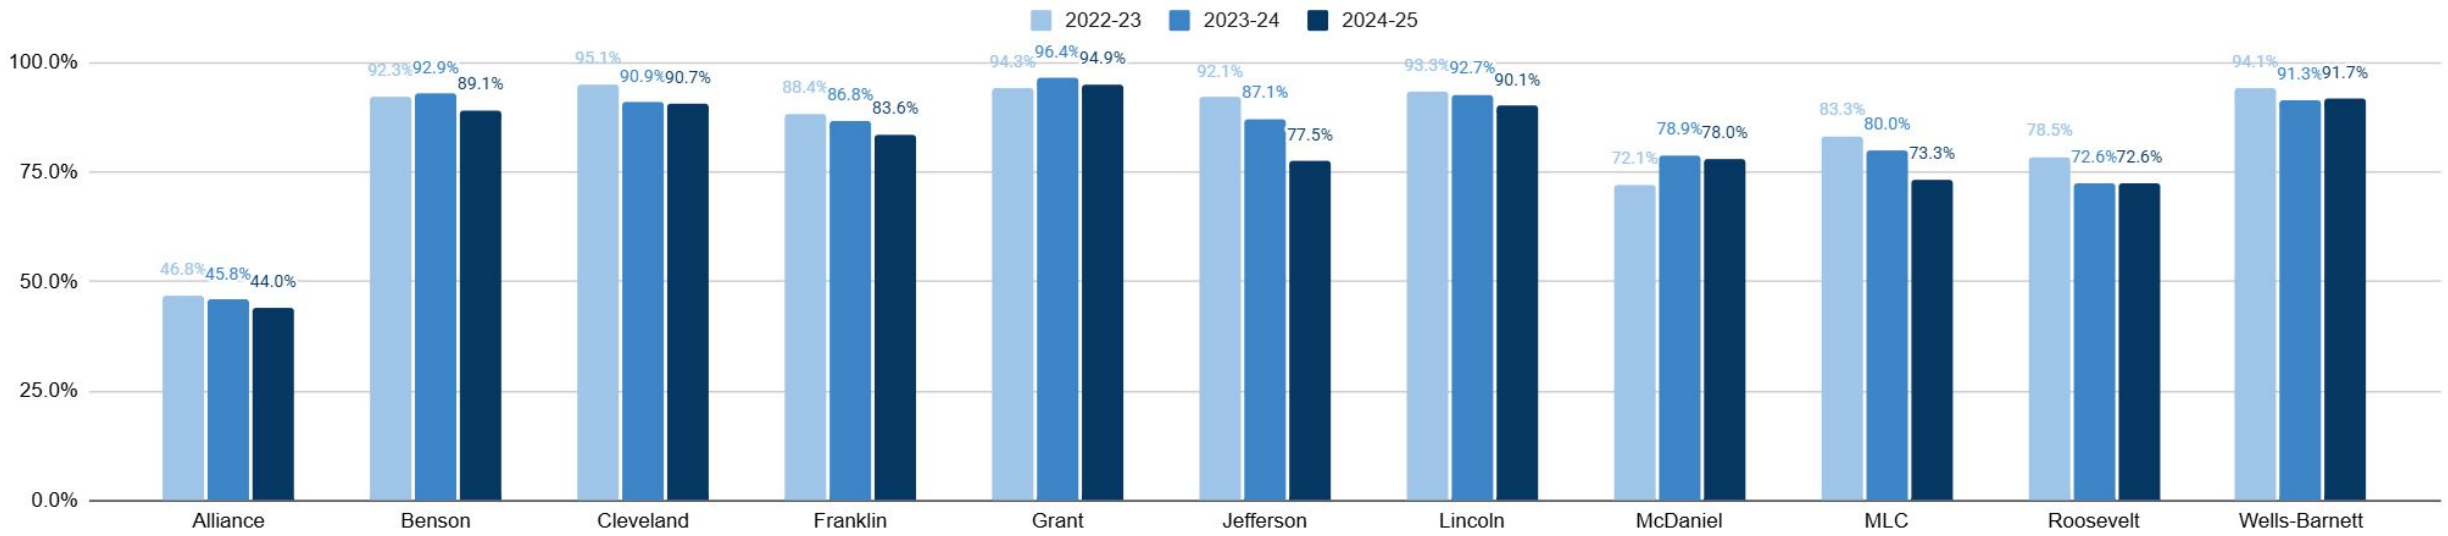

5-Year Completion Rates by Student Group, 3 Years

4-Year Graduation Rates by School, 3 Years

5-Year Completion Rates by School, 3 Years

What We Have Learned

Time in PPS Matters

The more time a student spends in a PPS high school, the greater the chance that the student will graduate on time. Students who are with us for all 4 years have a graduation rate of 96.1%

Time in PPS Matters

Students who attend a PPS high school for 3 years have a graduation rate of 71.8%. That drops to 51.1% for students attending two years, and 35.9% for those students attending just one year.

What We Have Learned

Racial Disparities

All students of color saw declines in graduation rate. These declines widen our achievement gaps. We must recognize, celebrate, and support difference without allowing it to predict outcomes.

Language Barriers

Our students who are learning English continue to struggle across academic indicators. As a system, we have to find opportunities to continue to strengthen our academic supports for our multilingual learners.

Special Education

Our students with disabilities are showing progress and we have provided support and training in this area. We need to replicate that support for other student groups.

Data Systems

We are recognizing that we can improve our data supports to schools and strengthen our communications and trainings regarding these supports.

Project: Graduation 

What

A regular, ongoing series of focused support meetings where we identify root cases, data and practice gaps, and supports needed for schools and students.

Why

Our data are not trending in a positive direction, which alerts us to the need for increased and targeted supports for students and schools.

How

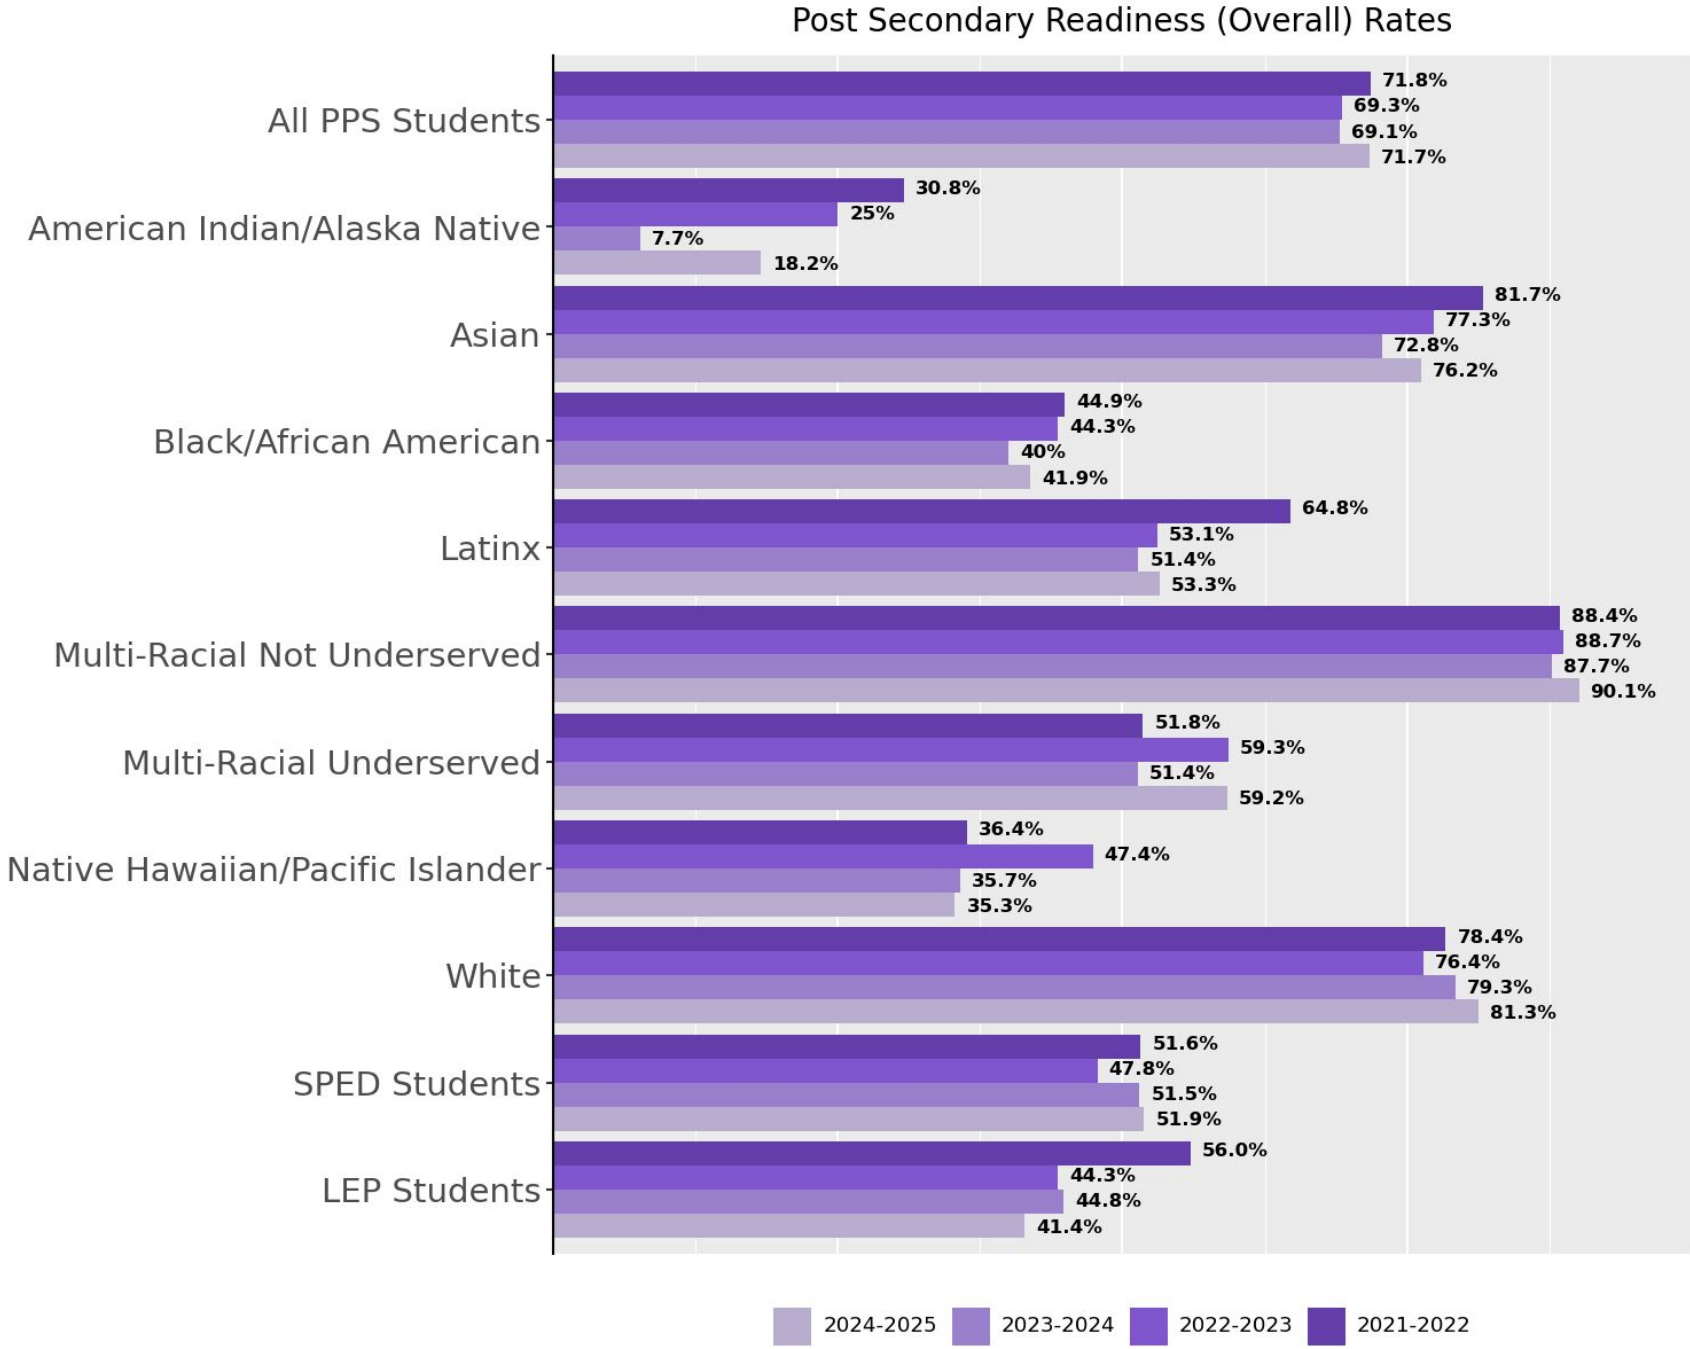

A collaborative effort between HS principals and central office teams (academics, student support services, equity, data and accountability) to drive increased support and improved outcomes for students.

Postsecondary Readiness

Postsecondary Readiness

1. Successful completion (C or better) of 3 or more **Advanced Placement** courses,
2. Successful completion (C or better) of 3 or more **International Baccalaureate** courses,
3. Successful completion (C or Better) of 3 or more **Dual Credit** courses,
4. Successful completion of a **Career and Technical Pathway** (3 or more courses in the same pathway),
5. Successful attainment of the **Seal of Biliteracy**, or
6. Successful achievement of a postsecondary readiness score on the **PSAT, SAT, or ACT**.
