Portland Clean Energy Fund Collaborating for Climate Action Award, With MESD serving as Fiscal Agent

Learning Targets and Success Criteria

Learning Targets	Success Criteria
• I am learning about the PPS Portland Clean Energy Fund Collaborating for Climate Grant.	• I can articulate the purpose of the Portland Clean Energy Fund Collaborating for Climate Grant.
• I am learning about the PCEF Strategic Program 16 Climate Friendly Public Schools grant.	• I can articulate the different PCEF grants PPS has received and the district goals for these funds.

Context

The City of Portland's Portland Clean Energy Fund is a voter-approved corporate tax. Its purpose is to drive down carbon pollution and increase community resilience and prosperity, starting with Portlanders who are most vulnerable to impacts of our changing climate. By providing funding to priority populations, PCEF is working to **ensure our most impacted residents are prepared for a changing climate**.

There is alignment between PCEF's priorities and **PPS's Climate Crisis Response, Climate Justice and Sustainable Practices Policy** (CCRP).

Today we celebrate another large grant award from PCEF to support our shared climate justice priorities!

PCEF Awards to PPS

In Progress: PCEF Strategic Program 16 Climate Friendly Public Schools (SP16)

- **Direct Allocation - $19.9M** (FY25 - FY29)
  - $16.9M for energy efficiency upgrades and infrastructure*
    - $10M of which dedicated to improving thermal comfort RE: PAT 2023 bargaining agreement

All PCEF Infrastructure investments must contribute to GHG reduction and take place at a PCEF-eligible school.

PCEF CCA Award Scope (MESD)

Scope	Proposed Allocation	Description
Personnel	$1.16 Million	1 FTE Project Manager Captial .5 FTE Green Schools Coordinator
Energy Efficiency, HVAC upgrades, and Green Schoolyards	$20.79 Million	• Energy efficiency upgrades for two schools: (1) Upgrade HVAC: new air source heat pump, (2) Upgrade Water Heaters: electric heat pump, (3) Upgrade Windows. • Green schoolyard improvements and landscape maintenance of those improvements for six schools.
Community Engagement with Coalition of Communities of Color	$115,000	Community Benefit Agreement includes contracting with the Coalition of Communities of Color for community engagement with PCEF priority populations at impacted schools
Other	$3.29 Million	Contingency funding and Indirect administrative costs

PCEF CCA Award - Projects Planned

- PCEF defines eligible schools as schools located in Portland with 50% or greater students qualified for free or reduced meals by direct certification, based on the most recent published data by Oregon Department of Education.

- PPS identified schools for the proposed energy efficiency upgrades and green schoolyards based on current school conditions, heat index, community demographics and equity considerations.

- PPS's grant proposal includes the following infrastructure improvements:
  - Upgrade HVAC, Water Heaters, and Windows at Woodmere Elementary.
  - Upgrade Water Heaters and Windows at César Chávez K-8.
  - Green Schoolyard Improvements at: César Chávez, Kelly, Lee, Lent, Sitton, Woodmere.
