**Curriculum Deep Dive Presentation**

Math
Filip Hristic provided an overview of the districts adopted math curricula, covering grades K-5, 6-8, and 9-12. A video was played that showed a classroom using the curriculum. There were questions about teacher feedback and staff provided examples of where they were able to incorporate feedback given. Director Chase-Miller asked questions about the challenges of implementing a new curriculum

with fidelity with current class sizes. Staff shared that lessons were set up to provide daily, consistent small group work allowing the teacher to work with students who needed extra support. It was acknowledged that any new curriculum implementation has a learning curve. There were questions about sequencing lessons and how to support students who miss a day or more of school. There were questions about assessments on how the district gathers data to assess how PPS is doing on the District Continuous Improvement Plan (DCIP).

English Language Arts

Emily Glasgow provided an overview of the English Language Arts Curriculum used throughout K-12 and the shifts made in literacy instruction. They showed a video of a classroom discussing and analysing the book “Hatchet”. There were questions about supporting the science of reading and also about what support is provided at the middle school level. Committee members expressed appreciation for the curriculum and had questions about whether there was a requirement to adopt a new curriculum. Staff shared that the state requires review of curriculum every seven years, but not to necessarily adopt a curriculum. Director Splitt expressed a desire to end the practice of using non-standards based assessments and would like to see less computer based assessments. There were questions about which high schools have Advance Placement (AP)Language and Literature. It was shared that International Baccalaureate (IB) schools do not offer AP courses.

**Adjournment**

The meeting was adjourned at 6:04 pm by Committee Chair Rashelle Chase-Miller.
