RESOLUTION No. 7323

K–12 Comprehensive Health Education Curriculum Materials Adoption

RECITALS

A. High-quality, standards-aligned health education is essential to supporting the whole child—academically, socially, emotionally, and physically. Comprehensive health instruction equips students with the knowledge, skills, and confidence to make informed decisions, build healthy relationships, and contribute to safe and thriving communities. Research demonstrates that when health education is inclusive, skills-based, and scaffolded across grade levels, it produces improved school climate, reduced violence, increased academic achievement, and lasting intergenerational benefits.

B. The Health & Physical Education (HPE) Team has completed a rigorous, four-year Comprehensive K–12 Health Education Instructional Materials Adoption spanning five sub-content areas:

- Mental and Emotional Health
- Food, Nutrition, and Physical Activity
- Substance Use Prevention
- Comprehensive Sexuality Education
- Violence Prevention

C. The recommended instructional materials align with the 2025 Oregon Health Education Standards, meet the requirements of ODE Division 22, and reflect Portland Public Schools' district-wide priority to adopt High-Quality Instructional Materials across all core subject areas. The adoption also supports the District Continuous Improvement Plan (DCIP) priorities of increasing attendance, improving literacy, improving math, and supporting 9th-grade success.This adoption fulfills Portland Public Schools' obligations under multiple Oregon laws and mandates.

D. The adoption process followed Portland Public Schools' established Adoption of Instructional Resources (AIR) process, utilizing field-testing and committee review. Because no commercially available health textbooks adequately met Oregon's health education standards or provided the flexibility required to respond to student data (such as the Youth Risk Behavior Survey and the School Health Survey), the district partnered with specialized public health organizations including Advocates for Youth, Stanford's REACH Lab, and Cairn Guidance. Grant funding was secured to support the development of the Mental Health and Nutrition curricula, for which Cairn Guidance developed custom instructional materials.

E. Over the course of the adoption, Portland Public Schools engaged students, families, educators, and community partners in a meaningful and ongoing process. Engagement efforts included: an open house and evening listening session at the Dr. Matthew Prophet Education Center; collaboration with the Village Table to review materials and gather community input; surveying over 207 students to inform culturally affirming and trauma-informed curriculum design; and

convening a youth panel to review and provide feedback on high school Comprehensive Sexuality Education lesson drafts.

F. On June 11, 2026, the Teaching, Learning, and Enrollment Committee reviewed and recommended forwarding the curriculum to the full Board for approval.

RESOLVED

1. The Board of Education accepts the Superintendent's recommendation to adopt and purchase the following K-12 Health curriculum adoption:

RESOLUTION No. 7325

Transfer from PERS Rate Stabilization Reserve Fund to General Fund as Provided in FY26 Adopted PPS Budget

RECITALS

A. In 2003, the PPS Board of Education (Board) created the PERS Rate Stabilization Reserve Fund (Reserve Fund) to account for the reserve needed to minimize large fluctuations in the PERS rate assessed against PPS salaries and wages, and to repay the PERS Unfunded Actuarial Liability (UAL) borrowing related to the District's participation on the Oregon School Boards Association Pension Obligation Bond Programs.

B. In 2011, in Resolution 4471 (attached hereto as Exhibit A), the Board dedicated 0.11% of each Current Year Property Taxes to the Reserve Fund, without increasing overall property taxes, and adopted certain parameters for funding and expending resources of the Reserve Fund. That resolution specifically provided that Reserve Funds could be transferred to the General Fund under either of the following conditions:

- For the PERS rate that is charged to all PERS-eligible district payroll: Upon rate increases in the contractually required PERS charge, an amount may be transferred from the Reserve Fund to the General Fund, not to exceed the contractually required combined PERS rate increase (over the PERS contractually required rate in effect at June 30, 2011) times the PERS-eligible budgeted salary base for the ensuing period.
- For the personnel benefits rate that is internally charged to pay annual PERS UAL debt service: Upon rate increases in the PERS UAL rate that are required to cover the current annual costs, an amount may be transferred from the Reserve Fund to the General Fund, not to exceed the calculated PERS UAL internal benefits fringe rate increase (over the calculated fringe benefits rate for the year ended June 30, 2011) times the PERS-eligible budgeted salary base for the ensuing period.
    -
- The Board may elect to transfer the combined maximum amounts determined for the two aforementioned conditions, any lesser amounts, or none at all.

C. The PPS adopted 2025-26 (FY26) budget provided that $23,961,548 from the Reserve Fund would be transferred to the General Fund to offset the cost of both the PERS rate that is charged to all PERS-eligible District payroll and the personnel benefits rate that is internally charged to pay annual PERS UAL debt service. This amount is in excess of the combined amounts calculated under the 2011 Resolution 4471, which does not reflect current PPS PERS side account credit conditions.

RESOLUTION

As reflected in the FY26 Board-adopted budget, the Board will forgo the calculation limitations in Resolution 4471 and approve the one-time transfer of $23,961,548 from the Reserve Fund to the General Fund. The transfer to the General Fund will partially offset the cost of both the PERS rate that is charged to all PERS-eligible district payroll and the personnel benefits rate that is internally charged to pay annual PERS UAL debt service.

Resolution 4471
Attachment A

Policy on the PERS Rate Stabilization Fund

The District has established a PERS Rate Stabilization Fund to mitigate and manage fluctuations to the rate assessed against PPS salaries and wages, and to repay the PERS Unfunded Actuarial Liability (UAL) borrowing relative to the District's participation on the Oregon School Boards Association Pension Obligation Bond Programs of October 31, 2002 and April 30, 2003.

FUND REVENUES

1. Resources will be dedicated General Fund property taxes in a minimum annual amount of 0.11% of the current year property taxes generated through property taxes for operations.

2. The Board shall allocate the annual amount as part of the annual budget development process.

3. The allocated current year property tax resources shall be budgeted in the PERS Rate Stabilization Fund.

4. Use of the resources must be authorized through formal Board resolution in adherence with federal and state law and in accordance with Governmental Accounting Standards Board (GASB) standards and in compliance with General Accepted Accounting Principles (GAAP).

5. The Board hereby dedicates 0.11% of Current Year Property Tax revenues, which are currently charged at the permanent rate of $5.2781 per $1 thousand of assessed value, will be recognized in the PERS Rate Stabilization Reserve Fund.

6. This dedication of property taxes will not increase the total property taxes received by the District

7. This 0.11% property tax revenue set aside will be applied to current year Multnomah, Clackamas and Washington Counties property taxes as recognized in Accounts (41111, 41112 and 41113), and current year property GAP taxes as recognized in Accounts (411311, 411312 and 411313). This resolution is effective in the current fiscal year ended June 30, 2011, and for future years, until otherwise enacted by the Board.

FUND EXPENDITURES

8. The Board resolves that in any given year funds may be withdrawn from the PERS Rate Stabilization Reserve Fund and transferred to the General Fund under either of the following conditions:
   - For the PERS rate that is charged to all PERS eligible district payroll: Upon rate increases in the contractually required PERS charge, an amount may be transferred from the PERS Rate Stabilization Reserve Fund to the General Fund, not to exceed the contractually required combined PERS rate increase (over the PERS contractually required rate in effect at June 30, 2011) times the PERS eligible budgeted salary base for the ensuing period.
   - For the personnel benefits rate that is internally charged to pay annual PERS UAL debt service: Upon rate increases in the PERS UAL rate that are required to cover the current annual costs, an amount may be transferred from the PERS Rate Stabilization Reserve Fund to the General Fund, not to exceed the calculated PERS UAL internal benefits fringe rate increase (over the calculated fringe benefits rate for the year ended June 30, 2011) times the PERS eligible budgeted salary base for ensuing the period.
   - The Board may elect to transfer the combined maximum amounts determined for the two aforementioned conditions, any lesser amounts, or none at all.

B. The Board of Education (Board) serves as the Budget Committee for the school district. The Board appointed a Community Budget Review Committee (CBRC) to review the Proposed Budget and current year expenditures of the existing Local Option Levy. The CBRC acts in an advisory capacity to the Board.

To the extent that the rate limit was increased under section 11 (5) (d), Article XI, of the Oregon Constitution, property tax revenue from said increase is excluded from local revenues. The District will notify the county assessors of the rate to be excluded for the current fiscal year no later than July 15.

RESOLUTION

Portland Public Schools Capital Construction Bond Accountability Committee Charter

DRAFT: April 29, 2026

Background

Portland Public Schools (the District) has successfully referred multiple Capital Construction Bond Measures for voter approval. The District has established a community Bond Accountability Committee, an independent group of community members to review reports and audits of how bond dollars are being spent to provide accountability to the public until bond projects are completed. The Committee will assist the Board of Education (Board) in monitoring the planning, execution, and progress of the bond programs.

Committee Charge

The duties of the Committee are (i) to receive and review reports and other information on the current status and planned implementation of the bond programs, including bond project and program status reports, critical path schedules, budgets and expenditures, project prioritization within bond programs, identification of risks, bond-project management key performance indicators, and annual bond performance audits; (ii) to determine whether such status and implementation are consistent with the program approved by the voters; (iii) to report their findings and recommendations to the Board. The Committee informs and advises the Board, but does not have decision-making authority.

The Superintendent has ultimate responsibility for performance of staff engaged in the implementation of the bond programs.

Based on the information provided by staff, the Committee will regularly review and provide updates to the Board on:

- Whether the bond revenues are expended only for the purposes for which the bonds were approved and that bond revenues are not used for any purpose prohibited by law, including annual review of the bond performance audit and the District's financial audit as it relates to bond expenditures;
- Whether the bond proceeds are sufficient to complete the scope of work as outlined in the voter-approved bonds;
- Whether the projects planned, in progress, and completed will meet the scope of work specified in the voter-approved bonds;

- Whether bond referral planning is consistent with PPS vision and the 30-year progressive bond program model;
- Whether each of the projects is being delivered on schedule and within established budget ;and
- Whether the District's bond program management is consistent with industry standards.

Additionally, the Committee may provide feedback and/or advice to the Board on one or more of the following topics as they relate to the bond-funded capital programs:

• Alignment with the goals of the Business Equity Policy;

• District standards and innovative practices for achieving lower maintenance and construction costs while improving operating efficiency, sustainability, and increasing building longevity;

• Historic preservation and school renovation opportunities compatible with the architecture of surrounding Portland neighborhoods;

• Potential capital partnerships for joint and shared use of PPS facilities;

• Development and implementation of the District's plan to improve seismic safety;

• Topics and scope for the annual performance audit work plan;

• Compliance with ADA; and

• Communicating key information related to the bonds to the Board, public groups, organizations and stakeholders.

The Committee will also review future bond planning processes and materials and provide advice to the Board, prior to bond referral, on:

• Cost-estimating processes related to proposed modernization efforts, new construction projects, and other potential scopes of work.

• Bond development risk management strategies including project cost escalation assumptions, contingency assumptions, bond management cost estimates, etc.

The Committee will use the Racial Equity and Social Justice framework in its review of bond projects and in providing advice to the Board. Any recommendation from the Committee to

the Board should include discussion of any possible impact on historically underserved student populations.

The Board by resolution may request the Committee to undertake other reasonable duties related to the Bond programs.

Code of Ethics

A Code of Ethics provides general guidelines for Committee members to follow in carrying out their roles. Not all ethical issues that Committee members face are covered in this Code. However, this Code captures some of the critical areas that help define ethical and professional conduct for Committee members. Committee members are expected to strictly adhere to the provisions of this Code of Ethics.

Policy

Each Committee member must uphold the federal and Oregon Constitutions; the laws and regulations of the United States and the State of Oregon, including complying fully with the ethics laws found within ORS Chapter 244; and the policies, procedures, rules, and regulations of the District. Additionally, Committee members shall:

- Act in the best interest of the District and the public
- Make service on the Committee a high personal priority by participating constructively and consistently in Committee work
- Prepare for meetings by reading the agenda and supporting material and learning about the subject matter
- Participate in rational, informed deliberations by considering reliable information and thinking critically
- Use one's own judgment versus following the lead of others
- Be committed to serving the District as a whole rather than any part or any personal or political cause
- Avoid conflicts of interest or the appearance thereof
- Provide advice and counsel untainted by personal, professional, or political interest
- Adhere to the highest standards of personal and professional behavior

For a period of one (1) year after leaving the Committee, a former Committee member may not represent any person or organization for compensation in connection with any matter pending before the District that, as a Committee member, he or she participated in

personally and substantially. Specifically, for a period of one (1) year after leaving the Committee, a former Committee member and the companies and organizations for which the member works shall be prohibited from contracting with the District with respect to:

- bidding or proposing to provide services on projects funded by the bond proceeds; and/or
- any construction project funded by the District.

Resolution No. 7341

Establishing a Temporary Pause on the Use and Expansion of Generative Artificial Intelligence Systems Pending Development of Board-Approved Policy and Oversight Framework

RECITALS

WHEREAS, Portland Public Schools ("PPS") has not drafted or adopted a Board Policy governing the use and approval of generative artificial intelligence ("GenAI");

WHEREAS, GenAI technologies present significant risks related to academic integrity, intellectual property, data privacy, and compliance with federal and state law; and

WHEREAS, PPS has a responsibility to protect personally identifiable student data, employee data, and other confidential information; and

WHEREAS, the Board finds that a deliberate and transparent review process is necessary before the PPS expands use of GenAI technologies or enters into additional contractual commitments related to such technologies;

RESOLUTION:

The Board directs the Superintendent to:

1) Pause the execution of any new contracts, contract amendments, subscriptions, pilot programs, software licenses, or procurement actions primarily related to GenAI technologies; 2) Pause the expansion of existing GenAI technology implementations beyond their current scope of work; 3) Pause the use of existing student-facing GenAI technology implementations; 4) Amend all existing educational technology contracts and data-sharing agreements to prohibit third-party vendors from collecting or sharing personally identifiable student data unless expressly required by law.

5) Provide, within 120 days of adoption of this Resolution, a comprehensive districtwide assessment of all AI systems, contracts, expenditures, pilot programs, data-sharing agreements, risk mitigation measures, and educational impacts; that includes, at a minimum:

a) An inventory of all GenAI tools, platforms, software products, pilots, and services currently utilized throughout PPS;

b) All associated contracts, costs, funding sources, and renewal dates;

c) A description of all student, employee, and PPS data shared with associated vendors;

d) Recommendations regarding future implementation, limitations, or expansion of GenAI technologies within PPS.

This pause shall not apply to cybersecurity, accessibility, or software maintenance functions that do not materially expand GenAI capabilities;

Due to significant public interest, future GenAI-related contracts shall require Board authorization, regardless of the Board approval threshold, or until there is a Board adopted AI policy or resolution.

The Board affirms that decisions regarding PPS adoption of GenAI technologies should be made through a transparent public process that prioritizes student outcomes, data privacy, and educational effectiveness.
