Comments from our Union Partners

Chris Walters, from the Service Employees International Union (SEIU), urged the Board to approve the SEIU labor agreement. He requested that the Board consider a policy addressing job protections related to immigration status for members, noting this could not be addressed through the collective bargaining agreement.

PAT President, Alicia Chavez, urged the Board to approve the substitute teachers' agreement and thanked educators and staff who worked over the summer in Summer Acceleration Academy and Extended School Year. She raised concerns about late communication to educators regarding Extended School Year placements and a payroll issue affecting summer-school educators, which was quickly resolved.

Update: Southeast Enrollment and Program Balancing Equity Audit Recommendations

Dr. John Franco, Margaret Calvert, and Dr. Terrence Green from the University of Texas at Austin, presented key findings from an equity audit of the Southeast Enrollment and Program Balancing initiative,. commissioned to inform the district's ongoing right-sizing process.

They also presented the right-sizing project governance structure, an equity-checkpoint review process, and enrollment projections showing declining enrollment.

Board members asked clarifying questions regarding family retention and displacement following program relocation, DLI enrollment structures (neighborhood versus lottery access), what sufficient transition support would look like, comparable practices in other districts, staff-of-color attrition, and why certain inner-Southeast schools were excluded from the original SEGC scope.

Draft Resolution: Sports for Creston Elementary Graduates Attending Hosford Middle School (Resolution 7365)

Director Englesman proposed a resolution requesting that, for the 2026-27 school year only, Creston Elementary graduates assigned to Hosford Middle School following the Southeast Guiding Coalition split feeder pattern, be permitted to participate in middle school sports with the Cleveland cluster students if they want. Director La Forte raised concerns regarding a proposed change to Policy 2.50.010-P -Public Access to District Records that would remove the option for requestors to appeal to the Board before appealing to the District Attorney's office. Director Splitt moved, and Director La Forte seconded the motion to place Resolution 7358 on the table.

- Director Splitt moved, and Director La Forte seconded the motion to remove Policy 2.50.010-P from Resolution 7358 for a separate vote. The motion passed (6 yes - 0 no - 0 abstain).

RESOLUTION No. 7354

Resolution to Approve the Formula for Distribution of Funding to Individual Schools Administered by the Fund for PPS

RECITALS

A. The Portland Public Schools Board of Education District-Wide Advocacy and Fundraising Policy (7.10.020-P) requires that the Parent Advisory Committee develop, in advance of the following school year, a recommended formula for the distribution of any funding to individual schools ("Distribution Model for Funding") .

RESOLUTION

The Board of Education approves the recommendations made by the Parent Advisory Committee for the Distribution Model for Funding administered by The Fund for PPS (attachment "A").

Attachment “A”

High Impact Tutors - $660,000

Our number one priority is to add student-facing staff in schools. We also considered adding teachers, counselors and full-time Educational Assistants, but investing in High Impact Tutors (HIT) for Reading in Elementary Schools will serve more students in more schools, given the funding we have available. This investment is also measurable, which will help in reporting back to donors the impact of their donations.

This model aligns with national and local best practices for High Impact Tutoring, integrating: Frequent, consistent tutoring sessions; Strong student-tutor relationships; Data-driven, skill-based interventions; Alignment with PPS literacy curriculum and instructional priorities.

IXL Digital Platform - $70,000

IXL Digital Platform for 9th and 10th graders allows us to also impact high school students with the aim to increase success in Algebra, a key determinant of high school graduation. IXL provides a suite of PPS adopted curriculum-aligned adaptive digital mathematics support, individualized skill practice, and real-time skill assessments designed to bolster algebra proficiency, improvements in graduation rates, and post-secondary readiness.

Food Pantries in 20 Community Schools (Title I K-5/K-8 Schools) - $200,000

According to the Needs Assessments conducted by PPS Community Schools Site Coordinators, access to food was the first priority need expressed by families. Given the uncertainty of funding for hunger relief from all levels of government (e.g. USDA, Mult Co), PAC wanted to prioritize food. Some of the schools are starting from scratch with their food pantries and this investment will provide the infrastructure needed (e.g. refrigerators, shelving). Remaining funds will be used for purchases of culturally specific nutritional food to supplement what is acquired through community partnerships, Oregon Food Bank and other donations.

Seed Fund for Future Fundraising - $100,000

After spending so many hours dedicated to this process, PAC representatives want to ensure the future success of fundraising for the district wide model, with a goal of fundraising closer to $4,000,000 in the next year. This would enable funding High Impact Tutors and potentially other staff in potentially all schools and serving more students. Seed funding will be utilized for marketing and fundraising efforts to engage PPS families and the broader community in supporting Champion PPS Schools, the campaign for this districtwide model coordinated by The Fund for PPS, fundforpps.org.

Endowment

The committee is also interested in establishing an endowment for Champion PPS Schools. One idea is to invite people to donate directly to an endowment. In addition, there is interest in setting aside 10% of donations to deposit in an interest-bearing account for the endowment.

Resolution No. 7357

Resolution to Establish the Portland Public Schools Standing Committees for the 2026-27 School Year

RECITALS

A. The Portland Public Schools Board of Education recognizes the value of Board Committees in supporting effective governance and in ensuring that complex issues receive the necessary time and attention for thoughtful consideration.

B. In accordance with Policy 1.20.014-P Board Committees, the function of special Board Committees is to consider actions or issues in detail that would otherwise monopolize the Board agenda and to provide policy advice for the Board's action or consideration, as appropriate.

C. Board Committees serve in a fact-finding, deliberative, and advisory capacity rather than as legislative or administrative bodies, and they do not have independent decision-making authority. Any recommendations developed by a Board Committee are presented directly to the full Board, which alone retains the authority to take action on such matters.

D. A Board Committee will not have the power to act on behalf of the Board and its primary role remains to provide informed recommendations to the Board for consideration.
